

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Richard Harrick

Mayor of the City of New York

This letter of Alexander Hamilton, previously unpublished, was discovered by the editor among the loose papers in the custody of the city clerk. Hamilton had recently resigned as Secretary of the Treasury and was granted the freedom of the City by the Common Council March 6, 1795 (see vol. II, p. 132). Reference is made to this reply in the minutes of May 18, 1795 (see vol. II, p. 148).

INTRODUCTION

HIS volume begins the publication of the sixty-eight engrossed manuscript volumes of the MINUTES OF THE COMMON COUNCIL OF THE CITY OF NEW YORK, preserved in the office of the City Clerk, numbered volumes 8 to 75, both inclusive. As they fill a gap in an otherwise nearly unbroken series of related records from the Dutch régime, in 1653, to the present time, a particular statement of the relationship is presented here.

On February 2, 1653, Director-General Peter Stuyvesant and his Council proclaimed a form of municipal government for New Amsterdam, granting "a bench of justice," consisting of two burgo-masters and five schepens, to be served by a secretary or clerk and a *boode* or messenger. Both judicial and administrative functions were defined in the instrument as promulgated.* The results of the execution of these functions were recorded in volumes of court minutes, executive or administrative minutes, and miscellaneous secretarial record-books, such as attestations, proofs, and declarations made by individuals; contracts; ground briefs and conveyances of land; mortgages; charter parties; sales of vessels, etc. With the change to an English system of municipal government in June, 1665, until 1673, and again after the English reoccupation in 1674, the records took the form of Mayor's Court minutes. From 1675 another series of minutes of the Common Council came into being, which continued during the English régime until 1776. The City of New York was under a military form of government during the remainder of the Revolutionary War. For a while after the treaty of peace a readjustment in the government of the city took place, and it was not until 1784 that the regular business of Mayor and Aldermen in Common Council bore fruit in systematic minutes. They have been continued through the various ramifications of government until today; but printed volumes have been issued contemporaneously only since May 10, 1831, with the single exception of the records for the year 1871.

On October 2, 1895, Mayor William L. Strong appointed a committee of citizens "to consider the condition of the City Library [then

* For particulars see Stokes, I. N. P., *The Iconography of Manhattan Island*, I: 38-39.

in the City Hall], with a view to making such suggestions and improvements as will make it a credit to the City, and a proper and desirable place for the custody of the City's valuable Archives." Six days later, the Board of Aldermen passed a resolution, which the Mayor approved on the 15th, directing the said committee, "under the supervision of the Clerk of the Board of Aldermen, to make translations of, and print, such of the Records contained in the City Hall, as they may desire; and that the Clerk of the Board is hereby authorized to loan to said Committee such records or books as shall be necessary to carry on their work, and shall take proper receipts therefor." The committee selected the court minutes of burgomasters and schepens of New Amsterdam, a portion of the administrative minutes of the burgomasters, and the earliest English minutes of the Mayor's Court of the City of New York to 1673. For carrying out the project, the Board of Estimate and Apportionment, on December 31, 1895, voted the sum of \$7,000. The committee selected Berthold Fernow as "Editor and Superintendent of the work"; in the autumn of 1897 the results appeared in seven octavo volumes as *The Records of New Amsterdam* (1653-1674), the volumes averaging 392 pages.

The engrossed minutes of the Common Council from October 17, 1675, to May 9, 1831, comprise seventy-five folio volumes. Those contained in volumes 1 to 7 cover the period from October 17, 1675, to May 24, 1776. They were published in 1905 in eight octavo volumes, averaging 469 pages, under the authority of the City of New York and under the supervision of another committee named by Mayor Seth Low from the membership of the New York Historical Society, which had originally proposed the publication to the Mayor. On February 10, 1903, the Board of Aldermen, at Mayor Low's request, resolved that the committee already appointed by him should have charge of the work. Professor Herbert L. Osgood, of Columbia University, was chairman of this Mayor's Committee and the editing was done under his immediate supervision, with the assistance of Austin Baxter Keep.

There are no minutes for the war period after May 24, 1776, or before February 10, 1784, except a few evidences of lost sessions preliminary to the last named date.

The publication of the minutes of the Common Council from 1784 to 1831 has been urged for a long time by individuals and by historical societies interested in the preservation of the public records of this city, as they cover nearly the first half-century of the city's existence

as a municipality in the United States—years of reconstruction and expansion under the stimuli of a democratic form of government. These minutes are of inestimable value to public officials, lawyers, real estate dealers—in fact, to everybody who has need of information with respect to land titles, property lines, streets and roads, docks and ferries, grants and franchises, etc., etc., as well as to the local historian and to the student of the processes of municipal affairs. After the great fire in the Capitol at Albany, in the spring of 1911, Dr. Edward Hagaman Hall, Secretary of the American Scenic and Historic Preservation Society, conceived the plan of securing against loss at least some of the minutes of the Common Council by preparing instalments for publication as appendices to the annual reports of that Society. The first instalment, beginning with February 10, 1784, appeared in the seventeenth, and the last, ending with August 20, 1790, in the twenty-first of these reports (1912-1916). Together, they embrace the minutes contained in the original volumes 8 and 9.* Now that the city government has undertaken the publication of the entire body of minutes, Dr. Hall's instalments have been discontinued, but his experience, as well as generous service, is continued by his association with this committee.

On June 8, 1916, Mayor John Purroy Mitchel communicated to the Board of Aldermen a request for the authorization of the issue of special revenue bonds for the publication of the MINUTES OF THE COMMON COUNCIL from February 10, 1784, to May 9, 1831. The subject was referred by the Board, on June 20th, to the Committee on Finance, which after a hearing reported favorably thereon, and the Board voted the same on July 7th, the Mayor giving his approval on July 20th. The Board of Estimate and Apportionment, on July 27th, authorized the Comptroller to issue the special revenue bonds pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter.

In August, 1916, Mayor Mitchel appointed a Publication Committee, an Honorary Committee, an Editor, and a Secretary, as follows:

PUBLICATION COMMITTEE—Marshall S. Brown, A.M., Professor of History, New York University; Edward Hagaman Hall, L.H.D., Secretary, American Scenic and Historic Preservation Society; Lamar Hardy, Corporation Counsel of the City of New York; Austin Baxter

* For information see these Reports for 1911, pp. 222-225; 1912, pp. 443-447; 1913, p. 629; 1914, p. 571; 1915, pp. 655-656; and particularly 1916, pp. 737-739.

Keep, Ph.D., Instructor in History, College of the City of New York; Herbert L. Osgood, Ph.D., LL.D., Professor of History, Columbia University; Victor Hugo Paltsits, formerly State Historian of New York and now Chief of the American History Division and Keeper of Manuscripts in the New York Public Library; William A. Prendergast, LL.D., Comptroller of the City of New York; and Paul C. Wilson, Assistant Secretary to the Mayor, who was added to this committee in May, 1917.

HONORARY COMMITTEE—Frank B. Bigelow, Librarian of the New York Society Library; Henry H. Curran, City Magistrate; James P. Davenport, Assistant Special Deputy Register of the County of New York; Edgar Dawson, Ph.D., Professor of History, Hunter College; Robert W. de Forest, LL.D., President of Metropolitan Museum of Art; R. T. H. Halsey, specialist on New York City history; Robert H. Kelby, Librarian, New York Historical Society; Francis P. Kenney, Chairman of the Finance Committee, Board of Aldermen; George McAneny, LL.D., formerly President of the Board of Aldermen; John B. Pine, L.H.D., Clerk of the Board of Trustees, Columbia University; I. N. Phelps Stokes, author of "The Iconography of Manhattan Island;" and William G. Willcox, President, Board of Education.

EDITOR—A. Everett Peterson, Ph.D., Instructor in History, Evander Childs High School.

SECRETARY—C. C. Williamson, Ph.D., Municipal Reference Librarian.

The Mayor's Publication Committee organized on October 4, 1916, at Kent Hall, Columbia University, by electing Mr. Paltsits as chairman, after Professor Osgood, the unanimous choice of the committee, had declined to serve on account of the pressure of other engagements. The Publication Committee has sat alone or in joint meetings with the Honorary Committee, in the Municipal Building or the New York Public Library. The first joint meeting took place on December 6, 1916, when Dr. John B. Pine was chosen as chairman of the Honorary Committee and presided with the chairman of the Publication Committee.

Specifications with respect to paper, printing, binding, etc., were drawn up in conference with the Supervisor of the City Record; bids were received, and the contract was awarded to the Martin B. Brown Printing and Binding Company for an edition of 350 sets. By resolution of the Board of Estimate and Apportionment it was ordered that

sets should be sold. It has been tentatively estimated that the sixty-eight manuscript volumes contain about six and one-half million words and that the publication will require about twenty volumes of eight hundred pages each, and an analytical index volume of more than one thousand pages. Dr. Peterson, the Editor, in his editorial preface treats more in detail the particulars respecting the methods of editing and printing. Several of the members of the Publication Committee have examined proofs as tests and have found the results satisfactory and accurate.

It is a pleasure to acknowledge the generous coöperation that has been accorded us by our associates of the Honorary Committee, by the Municipal Civil Service Commission, by the Supervisor of the City Record, by the Board of Aldermen, by the Board of Education, by the Board of Estimate and Apportionment, and no less by His Honor, the Mayor, in bringing this task to fruition.

VICTOR HUGO PALTSITS, Chairman.

EDITOR'S FOREWORD

THE editor of these minutes faced a problem quite different from any confronting the editors of the earlier minutes, namely, a mass of material about ten times greater than either of the previous sets had involved. The preparation of printer's copy of about 28,500 manuscript pages was the first step to be undertaken. The manuscript transcribed many years ago and used by Professor Osgood in editing the minutes from 1675 to 1776 was available through Volume 54. An investigation of these transcripts, however, showed the same abundance of copyists' errors that had marked the earlier volumes. The preparation of copy by this method would have been, at best, a slow process. The possible use of the photostat in the interest of speed and accuracy was therefore taken up with several printing firms, who agreed that the photoprints could be used if doubtful words or phrases were elucidated in the margin. Through the courtesy of the Comptroller a photostat machine in the Bureau of Contract Supervision was made available for the work, whereby the necessity of taking the valuable record books from the Municipal Building was removed. As the work has advanced the wisdom of the decision in favor of the photostat process has never been questioned.

A staff of assistants to aid the editor in reading and preparing the photoprints for the printer and in reading proof was necessary to hasten the work. Civil service lists were not available for work of such an exceptional character, but through the coöperation of the Municipal Civil Service Commission and many friends of the work, Professor Edgar Dawson of the Honorary Committee in particular, a staff of twenty-four assistants, most of them Hunter College students specializing in history, was secured. Their aid has become increasingly valuable as the work has progressed.

The editor has used the eight-volume work of Professor Osgood as a model and has followed closely the editorial practices therein employed. Wherever in the *manuscript* the intention of the clerk is obvious but his execution faulty, a letter or word has been inserted in brackets to indicate an *omission*; *likewise* italicized letters or words indicate redundancy.

Wherever the meaning of the clerk is not clear, no interpretation is attempted, the editor being convinced that over-editing is to be avoided in a work of this character.

In many places throughout the manuscript volumes marginal notes appear. In the majority of cases these were inserted by a later clerk. Some appear to have little value: others offer helpful explanations or suggestions. It has been the policy of the editor to retain them all, carrying them as foot notes.

Figures within brackets are the numbers of the pages of the manuscript volume and are placed before the first word of the page so numbered.

On the Publication Committee the Mayor included men of long acquaintance with old records. To these men the city owes much for the time and effort they have given so generously to the furtherance of this important work. The editor has gone to them frequently for advice; their counsel has been invaluable and their words of encouragement have been appreciated.

Through the efforts of Dr. C. C. Williamson, Municipal Reference Librarian, and Secretary of the Mayor's Committees, the editor has carried on his work in the sympathetic atmosphere of the Municipal Reference Library. Dr. Williamson's zeal in promoting the publication of these records has continued unremittingly with every step in the progress of the work and has been sufficient to overcome every obstacle. To him the editor is most grateful for assistance and counsel.

The editor's wife, Maude Gridley Peterson, has allowed her botanical studies to be set aside temporarily in the interests of the editor and the city. Accuracy bred of scientific research has availed in another field and has been unspeakably valuable.

The editor also wishes to acknowledge the unfailing courtesy of City Clerk P. J. Scully and City Librarian Philip Baer.

The City of New York was occupied by a British military force from September 1776 to November 25, 1783. During the interval there are interesting financial records extant, showing among other things disbursements made by the Vestry for the support of the Alms House and the poor, "for cleansing, paving and repairing the streets," and for rents of houses "occasionally found necessary to hire, for the accommodation of the garrison". (Letter of Henry B. Dawson to Mayor Opdyke in *Proceedings of the Board of Aldermen*, Vol. 86, pp. 209-227). There are no known Common Council Minutes, however, between May 24, 1776 and February 10, 1784. It is, therefore, from an investigation of other sources we know that the members of the Common Council holding office on the latter date were elected on December 15, 1783 (*Independent Gazette*, December 20, 1783). This incomplete body—there being no Mayor—organized with John Broome as President and assumed the government of the city under the title of the Aldermen and Common Council (*Independent Gazette*, February 12, 1784). The minutes of January 18, 1785, refer to a meeting of "the Aldermen and Assistants in Common Council convened" on December 26, 1783 (Cf. *infra*, p. 109). It was probably at this meeting that the action was taken concerning fire protection which was published in the newspapers a few days later (*New York Packet*, January 1, 1784; *Independent Gazette*, January 3, 1784). At a meeting probably held on January 2, 1784, action was taken to secure the inhabitants against the careless storage of gun powder (*New York Packet*, January 5, 1784; *Independent Gazette*, January 8, 1784). An Assize of Bread is to be connected with a meeting on January 16 (*New York Packet*, January 19, 1784).

Governor George Clinton appointed James Duane Mayor on February 5 (*Documentary History of New York*, IV:651) and he was duly installed on February 7 (*New York Packet*, February 9, 1784). In a letter addressed to the Common Council under date of February 7 the newly commissioned mayor refers to the custom of his predecessors of giving a "public entertainment" on assuming office, and declares that he feels justified in departing from the tradition because of the evidence of want and distress throughout the city. "Rather permit me, Gentlemen, to entreat you to take the trouble of distributing for me Twenty Guineas towards the relief of my suffering fellow citizens in your respective wards." (*Independent Gazette*, February 12, 1784.)

The Committee appointed to take into consideration such Cases as should from time to time be represented to them by the City Treasurer relative to any of the Corporation Lots or Houses on which there are Arrears of Rents due delivered in the following Report which was [17] read considered & agreed to by the Board viz^t

1st That they had taken into consideration a Petition of Agnes Douglass of this City Widow "setting forth that Matthew Morris Innholder on the last Day of April 1759 obtained a Lease from the Corporation for a Lot of Ground in the Rear of the Goal House N^o 32 reserving a Rent of £3 per Annum, that she took an Assignment of the Lease on the 3^d October 1760, that during the War she was compelled to pay the Rent to John Smyth the then City Treasurer to wit £18 : 5— and praying that upon her paying the Residue of the Rent to the present City Treasurer her Lease may be renewed." And are of Opinion that on the payment of the whole Arrears of Rent due (without deduction of any Monies paid by her on that Account during the War) a new Lease be granted to her on the annual Rent of £6 for the first 21 Years & £8 for 21 Years thereafter.

2^d That they have considered a Petition of James Purdy "setting forth that in the Year 1780 he obtained Permission from David Matthews to take possession of Lot N^o 18. in Chatham Street which was then supposed to be vacant, but which as he since understood had been leased to Frederick Clyne before the War. That the City [18] Treasurer has demanded from him the whole Arrears of Rent due from Clyne—that he is willing to pay the Rent accrued since 1780 and as he has improved the Lot he cannot but conceive it hard to be charged with the whole Arrears of Rent" and are [of] Opinion that a Lease be granted to him on the Terms above mentioned.

3^d That they have considered the Application of John Lockhart by Letter to M^r Phoenix the City Treasurer "setting forth that during the War he was compelled to pay the Arrears of Rent of a Corporation House at Pecks Slip to certain Officers appointed by the british Government in this City and that his property had been seized and carried off" and are of Opinion that on his paying the whole Arrears of Rent without deduction as aforesaid a New Lease be granted to him for one Year reserving a Rent of fifty Pounds

4th That they have considered a Petition of Florence Crowley "setting forth that Richard Outenbogert on the 30th April 1765 obtained from the Corporation a Lease for Lot N^o 108 on the East side of the Road leading from the Spring Garden to Kings Bridge nearly opposite to William Creelands for 21 Years at the annual Rent of £3 that on the 8th of [19] August 1769 he assigned that Lease and part of Lot N^o 109 to John Ferguson, that on the 2^d of May 1774 John Ferguson assigned over that lease to John Milldollar who has transferred his Right to the Petitioner; and praying a Grant or Lease for 21 Years from the expiration of the Term mentioned in the Lease first mentioned" and are of Opinion that a Lease be granted to him for 21 Years to commence the first May 1786—reserving an annual Rent of £4.

5th That they have considered the Petition of Leonard Fisher "setting forth that he is possessed of a Lease for two Lots of Ground N^o 123 & 124 in Queen Street which were granted to Elias Smith for the Term of forty two Years, thirty two whereof are unexpired; and praying a Lease to himself therefor reserving the annual Rent of five Pounds for each Lot from the first Day of May next, and also praying a Lease for a vacant Lot N^o 125" and are of Opinion that the Prayer of his Petition cannot be granted on any other Terms than his paying the whole Arrears of Rent on those Lots and a reserved annual Rent of £6 for each Lot.

6th That they have considered the Application of John Bowman and are of Opinion [20] that a Lease be granted to him of Lot N^o 126 in King George Street for twenty one Years reserving an annual Rent of £6.

7 That they have considered the Memorial of Peter Hegeman "setting forth that he has been called upon for the Arrears of Rent for Lots N^o 19 & 20 in Augustus Street which were leased to Henry Metcalf in 1779 & assigned to Nicholas Fletcher his father in Law, that the Lease expired in 1780 that he has considerable Demands against Nicholas Fletcher and praying a Lease for those Lots" and are of Opinion that on his paying the Arrears of Rent due to the Corporation a Lease be granted to him for 21 Years for those Lots reserving an annual Rent of Six Pounds in Trust nevertheless for Nicholas Fletcher to be assigned to him on his repaying to M^r Hegeman the Monies so advanced by him for the Rent

8th That they have considered the Petition of Ann Areson, and beg leave to report to the Board that Arrears of Rent are due to the Corporation from many meritorious Persons who have taken an active

& decided Part in the Cause of their Country & suffered all the Inconveniences of Exile and the Loss of all their Property; that many other Persons well affected to the Cause [21] of their Country (Lessees to this Corporation) who left this City in the Year 1776 have from Poverty and other unavoidable Misfortunes been obliged to return within the British Lines before the Peace took place and have been prevented from occupying their Habitations and deriving any Advantage from their leased Estates because of their Attachment to the American Cause, but upon Condition of their paying Rent to the Vestry or M^r Smyth their Treasurer. That in the first Case it will in the Opinion of the Committee, be inconsistent with the Rules of Equity to exact from such well attached returning Exiles the Rents which became in arrear from the time of their leaving the City in 1776 to the time of their occupying their respective Estates on the 25th Day of November last being the Day of the abandonment of the City by the British Troops.* That in the second Case the Committee are of Opinion, that no Rent ought, in Justice, to be exacted from the Citizens who were & continued well attached to the American Cause and who returned within the British Lines during the War and actually paid Rent to M^r Smyth for the period of time they actually paid Rent as aforesaid; And they are therefore of [22] Opinion that the Decision on M^{rs} Areson's Petition ought to be delayed until some general Line of Conduct be adopted by the Corporation in respect to such Cases.

The following Laws & Ordinances reported by the Committee were then passed & published & ordered to be printed in one of the public News Papers viz^t

1 "A Law for the due observation of the Lords Day called Sunday." (here take in Law as amended)

2 "A Law to prevent Strangers from being a Charge to this Corporation" (as above)

3. "A Law to appoint Surveyors for this City"

[68] On the Suggestion of M^r Mayor the Board came to the following Determination respecting the Bridewell—viz^t

Whereas the frequent Robberies Thefts & violent Breaches of the Peace committed in this City are become very alarming and unless some effectual Measures are taken for the prevention thereof by providing that the Bridewell be put on such Establishment as that the idle wicked and dissolute Persons in this City (most of whom were left behind on it's Evacuation by the British) may be confined and kept at hard Labor, this Evil, notwithstanding the unremitted Vigilance & Exertions of the Magistrates & other Peace Officers, will encrease And whereas the vast variety & weight of public Business which daily requires the Attention of this Board is such that they cannot possibly give that due Attention to the Establishment & Direction of the Bridewell which is necessary to render the Institution useful—

Therefore resolved that the Care and Direction of the Bridewell in future be committed to a certain number of Commissioners to be determined on by this Board and that in the meantime M^r Mayor be requested to confer with Persons & report [69] the Names of such

Thereupon it was ordered that the said Law be forthwith published in all the News Papers in this City.

Whereas by the said Law it is among other Things enacted that this Corporation be authorized to appoint Commissioners for the Purposes in the said Act particularly specified.

Thereupon the Board proceeded to the appointment of five Persons as Commissioners for the purposes mentioned in the said Law & Peter Van Brugh Livingston Leonard Lispenard Abraham Lott Henry Remsen and Gerard Bancker Esq^{rs} were unanimously appointed accordingly.

[94] M^r Mayor reported the Plan for carrying into effect the Resolution of this Board of the 26th Ult^o relative to the Bridewell; which was read and is in the Words follow^s viz^t

"To the Mayor Aldermen and Commonalty of the City of New York in Common Council convened and to the Board of Justices & Vestrymen of the said City severally and respectively

I James Duane Mayor of the said City do report that in pursuance of certain Resolutions passed in Common Council on the 14th day of May last And at the Board of Justices and Vestrymen on the first Monday of June Instant; I have held a conference with the Commissioners therein named and appointed and communicated to them a Plan for the future Management of the Alms House and the Bridewell or House of Employment respectively and that upon due Consideration it was unanimously approved of and subscribed by them with me in Testimony of their Approbation: and the said Plan is now, according to order, submitted to each of the said Boards respectively for their concurrence in the Words following (to wit).

Plan for the better Government of the Alms House and Bridewell or House of Employment in the City of New York.

[95] Whereas, by the Events of War, the number of the Poor to be maintained at the public Expence is greatly encreased, and the annual Tax to be assessed for their Sustenance is so burthensome that without diligent Attention and strict Economy in the Management of the Alms House that benevolent Institution is in

danger of becoming Oppressive to the Citizens And Whereas ever since the Evacuation of this District by the british Forces, the tranquility of the Inhabitants hath been disturbed by an idle and profligate Banditti who continue to rob and steal in defiance of the vigilance of the Magistrates and the severity of frequent and exemplary Punishments and by other abandoned Vagrants and Prostitutes whom the ordinary Process of Justice hath not awed nor reclaimed And it is conceived that the Discipline of the Bridewell or House of Employment vigorously administered will alone be effectual to correct and restrain those shameful Enormities: But so it happens that both the Alms House and Bridewell or House of Employment are at present in the immediate Government of the Mayor Recorder & Aldermen (the former in conjunction with the Vestrymen and the latter in conjunction with the Assistants or Common Council Men) While from the [96] multiplicity and weight of Affairs with which those Magistrates are incumbered as well in the Dispensation of Justice as in regulating the Police of the City and managing it's Revenues, it is found by Experience to be impracticable for them to extend that Degree of Care to either of the said Institutions which their Importance and the public Good demand. To Remedy therefore these Inconveniences.

Ist The general Superintendence of the said Alms House shall continue to be exercised by the Magistrates and Vestry Men who shall visit the same quarterly on every first Monday in May August November and February and oftner if it shall be found necessary, And the general Superintendence of the Bridewell or House of Employment shall continue to be exercised by the Mayor Recorder Aldermen and Assistants in Common Council convened.

II^d All Monies to be expended for the Support of the Alms House shall be issued out of the City Treasury by Order of the Board of Justices and Vestrymen at their quarterly or other Meetings on Warrants to be signed by the Mayor or in his absence by the Deputy Mayor or Recorder [97] And all Accounts of such Expenditures shall before payment be exhibited to and approved of by the said Board having previously been examined and audited by a Committee thereof And all Monies for the support of the Bridewell or House of Employment shall be issued out of the said Treasury by Order of the Common Council and on Warrants to be signed in manner aforesaid; all Accounts of such Expenditures being before payment also exhibited to and approved by the Common Council after the same shall have been first examined and audited by a Committee of that Board

III^{dly} The immediate Management of the said Alms House and Bridewell and House of Employment respectively shall be committed and entrusted to the said Commissioners who shall keep a Register of all their Acts and Proceedings and by whom all Provisions Cloathing Bedding, Fire Wood and Materials and Implements for the employment of the Poor as well as of Vagrants shall be purchased; and the Produce or Manufactures of each of the said Houses shall be sold and disposed of and accounted for And all the Officers and Servants of each of [98] the said Houses shall be appointed and removable by them as well as responsible to them for the faithful Discharge of their Duty.

IV^{thly} The said Commissioners shall have authority to recommend to the Magistrates for admission into the said Alms House all proper Objects of Charity and to discharge from thence all such as they shall judge no longer to stand in Need of or to be entitled to a Provision therein

V^{thly} It shall be the Duty of the said Commissioners to devise and make Rules and Orders for regulating and governing the said Alms House prescribing the Business of the Officers and Servants and the Diet Cloathing Employment and Treatment of the Poor and in general directing all Things which shall relate to the internal Economy of the said Alms House and which may in their Judgment best promote the benevolent Purposes of the Institution Provided always that such Rules and Orders shall from time to time be reported to the Justices and Vestrymen at their quarterly or special Meetings And be subject to such Alterations and Amendments as they shall think proper and enjoin. And in like Manner it shall be the Duty of the said Commissioners to devise and make Rules and Orders [99] for regulating and governing the Bridewell or House of Employment and for the Conduct of the Officers and Servants thereof and for feeding lodging maintaining employing correcting and reforming all idle and disorderly Persons from time to time committed or confined therein by any of the Courts of Justice or Magistrates either on the complaint of the said Commissioners (who are to be vigilant in enforcing the Laws against Vagrants or otherwise

VI^{thly} That Supplies of Provisions, Cloathing Fire Wood and Materials for the Use of the said respective Houses may be seasonably laid in and to the best Advantage it shall be the Duty of the said Commissioners from time to time as they shall judge proper to make Estimates of the several Articles which may be requisite and of the Price thereof and, being signed by a Major Part of their Board, to present the same to the Common Council or Justices and Vestry Men (as the

Case may be) and if approved Warrants shall thereupon issue in their favor for [100] the Amount of such Estimates And it shall be an indispensable Rule to adjust and settle the Accounts of the Expenditures of such Advances within three Months after the Money shall have come into their Hands.

VII^{thly} As the salutary Effects proposed by this Plan can only be hoped for by a diligent and unremitted Attention to the Government of the said Houses it shall be the Duty of the said Commissioners or the Major part of them to visit the said Houses respectively on Monday Afternoon between the Hours of two & six in every Week and every other Day in the Week (the Sabbath excepted) one of the said Commissioners alternately in the forenoon and another in the Afternoon shall attend the said Houses at least one Hour to see that the Rules and Orders to be established for the Government of the said Houses are properly observed and carried into execution

While I am honored with so flattering Marks of your Esteem it is [157] a peculiar Gratification to me to receive them in this City where with Delight I see the triumphant Restoration of the American Flag.

Amidst Hardships of War, which so heavily fell upon you, it has been your noble Task to give the World an Example of Disinterestedness and Fortitude—To unite with you in common Efforts and common Wishes, became my fortunate Lot; And altho' from a powerful Cooperation, then in readiness, we had a Right to expect the Repossession of New York, yet did I feel much happier, in the far better Method by which the End of your Exile was made a signal for restored Peace

In the precious Testimonies of your Partiality, now afforded me, I most pleasingly enjoy the new Tie that connects me with this City; And whilst I ardently share with you in every concern for it's Prosperity I beg leave to assure you, that the warmth of my Zeal can only be equalled by the Feelings of my Respect and Gratitude

“City of New York

“Gentlemen.

“Accept my warmest Thanks for your affectionate Congratulations on my Return to my native Country; and for the particular Mark of Approbation with which you have honored my Endeavors to do my Duty in promoting it's Welfare. I consider the Day on which I again landed on these Shores, as one of the happiest with which an indulgent

Providence has blessed me; and that Satisfaction was encreased by finding my Fellow Citizens in the Enjoyment of public Tranquility & private Security under the Auspices of Magistrates who had given early Proofs of Attention to both.

I cannot omit this Opportunity of offering to you Gentlemen my Congratulations on our having attained the Objects of a War, in the Course of which America in general, & this Part of it in particular, displayed exemplary Magnanimity & Perseverance; and exhibited to the World, the [178] singular Spectacle of a patriot Army of Citizens, peaceably retiring with their great and good Chief, crowned with Laurels & the Blessings of the People, to fill the various Stations of private Life.

If we cultivate the Virtues and observe the Policy requisite in Peace, with the Attention paid to those which (with the Blessing of Heaven) gave Success to the War—If our Views be national—our Union preserved—our Faith kept—War, however improbable, provided for—Knowledge diffused—and our fœderal Government rendered efficient, we, cannot fail to become a great and happy People.

This being a Land of Light and Liberty I bless God that it is the Land of my Nativity. Here my Forefathers* sought and found freedom and Toleration. I am bound to it by the strongest Ties, and as it's Happiness has been the first Object of my Endeavours from early Life, so the most fervent Wishes for it's Prosperity shall be among those of my latest Hours.

Mr Mayor having convened the Members of the Corporation they proceeded to wait on the Baron de Steuben with their Address to which he was pleased to make the follow^g Answer viz^t

To the honorable the Mayor Aldermen & Commonalty of the City of New York
Gentlemen

The flattering Testimonials you have condescended to give me of your Esteem & the kind Approbation with which you have been pleased to reward my well meant Endeavors to render Services to America in the late Arduous Contest inspire me with a Gratitude more easily felt than expressed.

It is not surprising, however flattering it may be to me, that my Services whatever they may have been, should be recollected by so important & respectable a Part of a Community, which has never ceased to remember those of their own Officers by whom I have been so effectually assisted—To the Abilities & Merit of the Officers & the singular Docility of the Soldiers with whom I had the honor to serve, America is in the highest Degree [188] indebted for that Discipline Order & Economy which finally distinguished her Army. To none is she more obliged than to those of this State; And I am happy in having this Opportunity of acknowledging how much I am indebted to them for the Success of the System it became my Duty to propose.

I accept with the most lively Sense the Honor conferred on me by this Mark of personal Attention. If any Thing could add to it's

value it would be enhanced by the manner of your bestowing it. The Proofs I have had of the Esteem of the Inhabitants of this City have convinced me that I have made a happy Choice in fixing on my Place of rest from my military Labours. It will be my highest Ambition to deserve the Honor of being enrolled among them. Possessing the good Opinion of my fellow Citizens & their worthy Magistrates I can with the more Confidence anticipate the Friendship of those of the State at large for whose Prosperity I shall ever most gratefully & sincerely pray

I have the honor to be &c &

Steuben.

The respectful Address of the Mayor Aldermen and Commonalty of the City of New York in Common Council convened.

Sir

When this City after it's Restoration*, had the Honor of your Excellency's Presence, it was regretted that the Derangement of it's Institutions, suspended those public Testimonials of Respect Gratitude and Applause which every Heart, truly American, is solicitous to pay to your distinguished Merits and Services. The Effusions of public Esteem are the most welcome Tribute to a patriot Mind, and as none can have greater Reason to cherish the most honorable and affectionate Sentiments towards you than the Citizens of the State of New York, so we have the fullest Confidence, that there is no State in which they are more generally and emphatically felt. Name enrolled among the Citizens of a Metropolis for the Recovery of which so much of your Care and Sollicitude have been employed.

On the present Occasion we wou'd wish to convey to your Excellency a just Idea of the Admiration we feel for the Virtues you have displayed in the late Revolution: But Justice to the illustrious Part you have acted would oblige us to adopt that strong Language of Panegyrick which we fear would wound the Delicacy for which you are conspicuous We shall therefore only indulge ourselves so far as to observe that it is your Glory, thro' all the vicissitudes and embarrassments of a Revolution, thro' alternate Scenes of prosperous and adverse Fortune never to have known a Moment when you did not possess the full Confidence and Esteem of your Country; and after having, by the Divine Favour, most essentially contributed to establish the Liberty and Independance of thirteen Republicks, it is your peculiar Glory to have chearfully [207] retired from the Head of a victorious Army to the modest station of a private Citizen.

Permit us to add our fervent Prayer that your Excellency in just Reward of such eminent Services and Virtues may be crowned with every Blessing which a grateful Country and indulgent Heaven can bestow."

By James Duane Esquire Mayor and
the Recorder and Aldermen of the City of
New York:

To all to whom these Presents shall come or may concern
Greeting.

Whereas His Excellency George Washington late Commander in Chief of the Armies of the United States of America, by a series of the most illustrious Services is entitled to the Respect Gratitude and Applause of every Heart which is truly American: And as none can have greater Reason to cherish the most honorable and affectionate Sentiments towards him than the Citizens of the State of New York: So we have the fullest Confidence that there is no State in which they are more generally and emphatically felt. Flattering ourselves that, convinced of this Truth, His Excellency may be pleased to have his Name enrolled among the Citizens of a Metropolis for the Recovery of which so much of his Care and Sollicitude have been employed: Now therefore know ye that we, considering that the Effusions of public Esteem are the most welcome Tribute to a patriot Mind, have admitted and received and by these Presents Do admit and receive his said Excellency [208] to be a Freeman and Citizen of the said City—To hold exercise and enjoy all the Rights Priviledges and Immunities

to the Freedom and Citizenship of the said City incident and appertaining, as a permanent Proof of the Admiration we feel for his exalted Virtues—for the Wisdom Fortitude and Magnanimity which he hath so gloriously displayed—thro' all the Vicissitudes and Embarrassments—thro' all the alternate Scenes of prosperous and adverse Fortune, produced in the Progress of an arduous and difficult War—And finally for that patriotic Heroism which after having been an essential Instrument in giving by the Divine Blessing, Liberty and Independence to thirteen Republicks, hath led him to retire with Cheerfulness from the Head of a victorious Army to the modest Station of a private Citizen.

In Testimony of these Truths and to perpetuate them to our remotest Posterity, we the said Mayor Recorder and Aldermen have caused these Presents to be entered on our public Records and our common Seal of the said City, enclosed in a golden Box, to be herewith affixed. Witness James Duane Esq^r Mayor of the said City this 2^d Day of December in the Year of our Lord 1784 and of the Independence of the State the ninth."

Ordered that the said Address and Certificate be engrossed—that Mr Mayor subscribe the Address on behalf of this Corporation and that the common Seal of this Corporation be affixed to the said Certificate; and that Mr Mayor who is going to Phil^a on public Business be requested in the Name of this Corporation to present the said Address and Certificate with the golden Box to his Excellency who is expected at that Place [209] otherwise that Mr Mayor transmit the same to his Excellency by such Conveyance as he may conceive most proper.

A Petition of Catharine Lawrence Isaac Sears & John Blagge was read setting forth that, since the hearing on Thursday the 6th Inst of John Cochran on the subject Matter of his Petition for the Grant of a Water Lot at Beekmans Slip, they had been furnished with Testimony which they are [222] advised is material to the Matter in Controversy and which was not at that Time in their Power to produce & praying the Board to suspend any Resolution on the Subject until they can be reheard by themselves or Council at such Time & Place as this Board shall appoint.

Ordered that the Prayer of the said Petition be granted & that Wednesday the 16th febr^y next at 4 OClock in the Afternoon be appointed for the purpose & that the s^d Petitioners furnish D^r John Cochran with a Copy of this Order to the end that he may also be reheard by himself or Council

A Petition of Thomas Bridgen Attwood praying to purchase the fee simple of a Lot of Land on Inchlamm Bergh formerly leased to Jacobus Van Zandt, was read & referred to Aldⁿ Bayard & Neilson & M^r Phoenix

The Petitions of William Dean Jacob Morris Elias Stillwill, John Post & Barnardus Swartwoudt praying to be appointed Repackers & Cullers was read.

Ordered that the Prayer of the said Petitioners be granted & that M^r Mayor be requested to appoint them accordingly. And Ordered

that Ab^m Post be & he is hereby appointed one of the public Measurers of this City.

A Petition of Abraham Brinckerhoff praying an Abatement of the Quit Rent which became due during the War on a Water Lot at Burlings Slip was read & referred to the Committee on similar Petitions

A Petition of W^m Pears praying the Board to make him some Allowance towards his Support during his indisposition in consequence of a fall from the Bridewell was read [223] Ordered that he be

The Petitions of Christopher Stymets Isaac Mead & Jacobus Bogert praying a Compensation for the Injury done to their respective Lots in consequence of the late regulation of Cortlandt Street were read & postponed for future Consideration.

A Petition of Ab^m Cannon praying the Grant of the Soil under Water opposite to his Land at Corlaers Hook was read & referred to the Committee on the Petition of Quackenboss & Abeel.

A Petition of David Demarest & others praying to be informed whether it is intended to continue the Street,* in the Rear of S^t Pauls Chapel, across Dye Street was read & postponed

A Petition of Benjamin Benson praying a Lease for about 15 or 20 Acres of the Common Lands North of the Saw kill was read & referred to Aldⁿ Bayard M^r Lawrence M^r Phoenix & M^r Shute.

A Petition of M^{rs} Margaret Livingston praying a remission of the Quit Rent on a Water Lot which became due during the War; was read & referred to the Committee on similar Petitions

[224] The Committee appointed for the Sale of the Corporation House & Lot at Pecks Slip delivered in the following Report viz^t

“That the Lot on which the Buildings belonging to this Corporation on the North side of Water Street at the Corner of Pecks Slip now stand is in front on the said Street only 25 feet & in the Rear 19 feet containing on each side 50 feet But that on examining the Ground between the said Build^{gs} & the Market, there is a vacant Piece of Ground of upwards of 32 feet besides the Street which is 27 feet lying between the Market and the said Buildings;

* Marginal note reads *Church Street*.—Ed.

which appears to the said Committee to have been left during the continuance of the Slip to accommodate the public and form a Passage or Pier round into Water Street & which has occasioned the said Building to be set thus far back. That since the filling up of the said Slip this space of Ground has remained open and unimproved; but they conceive may be taken in without any prejudice to the Publick. That it appears further to the Committee that the said space of Ground cannot be considered as any part of the Street, as there is a Distance of 67 feet 2 Inches exclusive of the said Ground and taking in and improving the same will make the Street uniform & bring the Buildings on a Line with those opposite the upper End of the Market The Committee therefore recommend it to the Board that the said open Piece of Ground containing 32 feet be added to the Lot now improved [225] And that the same be laid out into three Lots consisting of 19 feet front on Water Street & 17 feet Rear to contain on each Side in Length 50 feet as will appear by referring to the annexed Draft made by M^r John M^cComb one of the City Surveyors The Committee conceive that the Board by adopting the said Draft and disposing of the said Lots agreeable thereto will be enabled to raise a very considerable Sum at this Time so necessary to answer the Demands of their numerous Creditors Nor do they conceive there will be any inconveniency resulting therefrom as the Distance between the said Lots and the Market will be sufficient and deemed a spacious Passage; which is submitted to the Consideration of the Board

Then a Petition of several Inhabitants of the neighborhood of Pecks Slip praying that the said House be not sold but that the same be kept for the Use of a ferry House; was read.

The said Report & Petition being immediately taken into consideration it was Resolved that this Board do approve of & agree to the said Report, notwithstanding the said Petition to the Contrary, & that the said Lots be sold accordingly.

[226] A Petition of Francis Child with an Acc^t for victualling Prisoners in Goal previous to the late War was read & referred to the Committee of Accounts.

M^r Mayor informed the Board that having communicated the Resolution of this Board of the 27th of Dec^r last to his Excellency the President of Congress on his arrival in this City, a Resolution of that hon^{ble} Body had been transmitted to him which was read in the Words following, viz^t

A Draft of the Grants to W^m Williams & others for the Lots lately sold by order of this Board situate at the North River near the Bear Market Also the Draft of a Grant of a Water Lot to Rob^t

Murray at Burnets Key were respectively [242] read & approved & ordered to be engrossed

The Map of the said Lots at the North River as approved on the 7th Inst. being produced an Amendment thereto was proposed by altering the front of them next the River by which Means the front of them were bro't nearer to a Square; which Amendment being agreed the said Map was altered and amended accordingly

On a suggestion that the Grant of the s^d Water Lot of M^r Murray was petitioned for & the Lot actually occupied ever since the Year 1775 & that M^r Murray purchased it with all the Incumbrances. It was Ordered that the Quit Rent commence at that time

It being suggested that the Schools in the City Hall greatly disturb Congress in their Deliberations—Ordered that M^r Riggs & M^r Grahams remove their School immediately from the City Hall & that M^r Skaats serve them with a Copy of this Order.

The Committee to whom was referred the Applications of Mess^{rs} Stone & Crosby for a Lease of the House, at the White Hall Dock, used during the War as a Slaughtering House, reported it as their Opinion "that the said House be let for one Year from the first of "May Next to any Person, to be used as a dwelling House, who will be "at the Expence of repairing the same." which Report was read & agreed to by the B^d

The Committee to whom was referred the Petition of Elizabeth Mesier reported that they had examined the Facts stated in her Petition—That agreeable to what is set forth in the said Petition it appears that a Grant of the said Ferry was made to Abraham Mesier from the first of May 1774 at the rate of [243] two hundred & ten Pounds P Annum for three Years—that six Months after the said Grant a New Ferry was erected which having been sold for the benefit of the Corporation for £50 it was agreed to allow the said Purchasor the above Sum—that after the said Term the Rent reserved was One hundred & sixty Pounds until the first May 1776 when the Petitioners were obliged to leave their Property in the City & retire into the Country—that on the 26th Nov^r 1783 they returned to the City and again took Possession of the said Ferry and have established the same at a very considerable Expence. The Committee were therefore of Opinion that an Allowance be made to the said Petitioner of Eighty Pounds per Annum for the Term from Nov^r 26th 1783 to the first May 1785 And that a new Grant be made to the said Elizth Mesier of the said Ferry for four Years at the annual Rent of One hundred Pounds," which Report was read & agreed to by the Board.

Alderman Lott the Commissioner for granting the Excise informed the Board that by a Mistake, of his Son, the Proceeds of the Excise as well as the Fees he had received for the Mayor & Clerk for the License Recognizance & administering the Oaths directed by Law to the respective Tavernkeepers (being 16/ on each License) had been paid to the Chamberlain—that on discovering the Mistake he had requested the Chamberlain to return to him the Fees which had been so received for the use of [244] the Mayor & Clerk; but that the Chamberlain alledged that he should not think himself at Liberty to comply with his Request without an Order of the Corporation; And the Chamberlain moving for the Directions of the Board thereupon. And the Question being put it was Resolved that the said Fees should be returned to Aldⁿ Lott for the Use of the Mayor & Clerk.

M^r Aldⁿ Broome informed the Board that the Accounts of M^r Aldⁿ Lott as Commissioner of Excise for the last Year were deposited with him for settlement as one of the Auditors of Acc^{ts} And he requested the Sense of the Board whether the said Fee of 16/ for the Mayor & Clerk on each Licence should be allowed in auditing the said Accounts; And the Question being put accordingly it was resolved in the Affirmative.

N^o 278 Ordered that M^r Mayor issue his Warr^t on the Treasurer issued to advance John McComb the Sum of £150 on Acc^t towards Repairs to the Bridewell.

The following Plan of the Commissioners for laying out the Streets in the Burnt Part of the City was read viz^t

“ We the Subscribers Commissioners appointed for the purpose of laying out Streets in the burnt Part of the City of New York in pursuance of a Law passed the 4th Day of May last beg leave to recommend the following Alterations in the Southern Part of the said City to wit. That the Ground lying West of Broad Street and between Beaver Street & Dock Street, be divided into three Parcels & have two Streets of fifty feet wide each running between them, That that Part of it which fronts the Broadway, be in a straight Line from the Corner of Beaver Street to the Corner of Dock Street as represented by a red Line on Plan N^o 1, hereto annexed.

That the Buildings hereafter to be erected on the North side of Beaver Street and East of the Entrance of New Street be in a straight Line between the easterly Corner of New Street and the Corner of the House of Andrew Breested in Broad street as represented also by a red Line on the annexed Plan.

That New Street from Beaver Street Northerly [247] to Verlettenbergh Street be widened Six feet, to wit three feet on each Side.

That New Street on the North side of Verlettenbergh Street be widened three feet to wit on the West Side of it where it meets Verlettenberg Street; and this widening to diminish as the Street runs Northward so as to come to a point at the House now occupied by Mr John Wiley.

That on the West Side of the Broad Way a Street be laid out running Westerly to the North River of the same Breadth & opposite to the West End of Verlettenberg Street And we beg leave to suggest

that Verlettenberg Street will be greatly improved if [it] is raised about three feet where it crosses New Street and lowered about three feet at it's West End on the Broad Way and this Alteration will improve New Street likewise, as it will lessen the Descent from the upper End which is now too great and give some descent to the lower End which is now nearly level.

That the Buildings to be erected on the East side of the Broad Way between the late dwelling House of William Smith Esq^r and that of David Johnson Esq^r be on a straight Line and from the said Dwelling House of David Johnson to the Corner of Beaver Street also in a straight Line.

M^r Mayor produced to the Board A Letter from his Excellency General Washington covering his Answer to the Address of this Corporation of the 2^d of December last; which said Answer is in the Words following viz^t.

“To the hon^{ble} the Mayor Recorder Aldermen & Commonalty of the City of New York.

Gentlemen

I receive your address and the freedom of the City with which you have been pleased to present me in a Golden Box, with the sensibility and Gratitude which such Distinguished honors have Claim to. The flattering expression of Both, stamps value on the Acts; & call for Stronger language than I am Master of, to convey my sense of the Obligation in adequate terms

To have had the good fortune amidst the Viscitudes of a Long and arduous contest “never to have known a moment when I did not “possess the Confidence and Esteem of my Country”—and that my Conduct should have met the approbation and Obtained the Affectionate reward of the State New York (where Difficulties were [273]* numerous & complicated) may be ascribed more to the Effect of divine wisdom, which had Disposed the Minds of the people Harrassed on all Sides, to make allowances for the embarrassments of my situation, whilst with fortitude and patience they sustained the loss of their Capitol, and Valuable part of their Territory, and to the liberal sentiments and great exertion of her Virtuous Citizens, than to any Merit of Mine

*The consecutive pagination of the original manuscript minutes is interrupted here by the interpolation of a leaf paged 271 and 272, given hereafter.—Ed.

The reflection of these things now, after the Many hours of anxious solicitude which all of us have had is as pleasing; as our embarrassments at the Moment we encountered them were distressing—and must console us for past sufferings and perplexities

I pray that Heaven may bestow it's Choicest blessings on your City, that the Devastations of war, in which you found it, may soon be without a trace—That a well regulated and beneficial Commerce may enrich all your Citizens, and that your state (at present the seat of the empire) may set such examples of wisdom and liberality as shall have a tendency to Strengthen & give permanancy to the Union at home—and credit and respectibility to it abroad. the accomplishment whereof is a remaining wish, and the primary object of all my Desires.

G^o Wassington "

The Committee appointed to enquire & report on the Subject of the intended Alterations in the Streets at Verlettenbergh & Broadway delivered a verbal Report on the Subject Whereupon the Board came to the following Determination viz^t

That the Corporation are of Opinion that the levelling of the Broadway so as to give it a gentle Descent from the upper Pump to the Bowling Green would be a public Ornament as well as convenience to which they would chearfully contribute did not the Condition of their Funds forbid it: But as they are circumstanced, if the Improvement should be adopted, it must be accomplished at the private Expence of the Proprietors; and as the Corporation are uncertain whether the Proprietors of the Lots having suffered so much under the Waste & Ravages of the War would be willing to incur that Expence and conceiving it might be considered as a hardship to compel them against their [275] Inclination, the Corporation submit it to the Determination of the Proprietors whether the Alteration shall be made or not, in which if they cannot unite the Street^s must remain in it's present Situation—If they can agree it will be regulated as formerly proposed and the Corporation will in that case be at the Expence of purchasing the Lot belonging to M^r Moore in order to enlarge the Street to Hudson's River from the Broadway

That there appears to the Committee from the Remains of the Fence now standing as well as from the Testimony of divers Persons who are well acquainted with the situation & extent of the Ground formerly purchased of _____ by the Corporation to be a considerable Piece of the said Ground now enclosed within the Fence of the Garden belonging to the House formerly occupied by John Rapalye; Which Ground was enclosed by him at the Time when the old Ferry House was unfortunately destroyed by Fire and has since been detained by him notwithstanding frequent Applications have been made for removing the Fence to the proper Line

[287] The Committee are of Opinion that great Advantages might result from the proposed Improvements of M^r Sands, not only to himself but also to the Public, by opening a Street between the East River and the Rear of the House of M^r Sands to run in front of the Barn now belonging to the Corporation & to continue along the Shore. And that a Grant be made to M^r Sands of the Water Lots adjoining to the said Grounds on the same Terms as has been granted Philip Livingston &^c Provided that the Fence in the Rear of the Ferry House be removed to it's proper Line and the Ground enclosed by John Rapalye be added to the Yard of the Ferry House to enlarge the same; Without which Addition the Committee are of Opinion that it will be attended with great Inconvenience to the Tenants of the Corporation as well as sacrificing a considerable Piece of Ground to the use of the public from which the Corporation or their Tenants will derive no advantage.

M^r Recorder presented to the Board a State of Facts drawn up by M^r Mayor, on the Subject of the Report of the Committee on the Mayors fees; which was read Ordered that the same Committee meet with M^r Mayor to confer with him on the Subject & to receive his Proposals and that they report the Result to the Board

The Board proceeded to the Consideration of the Case of Doctor John Cochran Whereupon Resolved that it does appear to this Board That on the 12th [301] Day of September 1750 M^{rs} Cornelia Schuyler now deceased, did by Petition apply to the Mayor Aldermen & Commonalty of the City of New York in Common Council convened praying a Grant to her of a Water Lot fronting her Lot of Ground at Beekmans Slip in Montgomerie Ward And that the Deputy Clerk

was directed to prepare a Grant of the same pursuant to the prayer of her Petition & that he should produce the same at the next Common Council—That some time in the Year 1764 Doctor John Cochran (being inter married with Gertrude the Daughter of M^{rs} Schuyler, did by Petition apply to the Common Council for a Grant to him of that Water Lot That the Inhabitants of that Neighborhood did at the same time present to the Common Council their counter Petition praying that the Prayer of Doctor Cochrans Petition might not be granted and further praying that the Parties might be heard by themselves or Counsel. That it appears from the Minutes of the Common Council of the 20th of March 1764 that in pursuance of an Order of the Common Council of the 13th of that Month D^r Cochran by Tho^s Smith his Counsel & the Neighborhood of Beekmans Slip by M^r Benj. Kissam [302] their Counsel were heard And that thereupon the Board declared it as their Opinion that Doctor Cochran was entitled to a Grant of the Water Lot petitioned for by him or an equivalent for the same; which equivalent the Board did fix at five hundred Pounds to be paid to him with all convenient speed by those who opposed the Prayer of his Petition, or that in default thereof the said Water Lot be granted to him upon the Terms whereon the Water Lots in that Neighborhood had been granted; he first paying the back Rents from the 12th Day of September 1750 and that it was further Ordered that if the said Sum of five hundred Pounds should be tendered to Doctor Cochran or his Counsel within a reasonable Time & he or Counsel should refuse to accept that Sum that then he & all those claiming under him and all other Persons whatsoever should be forever debarred from any Claim or Pretence whatsoever to a Grant of the Board for the said Water Lot, Excepting such part thereof as the board should thereafter think proper to grant for a Pier on the South West side of the Slip adjoining the House & Lot of John Berrien. That it further appears from Doctor Cochrans Confession before this Board that he received [303] the said Sum of five hundred Pounds in the said last recited Order of the Common Council mentioned.

That it appears further from the Minutes of Common Council that on the 15th Day of August 1764 an Order passed in the Words following viz^t

“It is ordered by the Board that John Berrien have liberty to “lay a Pier of 18 feet on the northeast side of his dwelling House “fronting Beekmans Slip and that the remaining Water Lot lately “claimed by John Cochran be forever hereafter left open for the “use of the public; which said Pier is to be & remain a public Pier

" & Street for the use of the public forever, the same to be from time to time forever hereafter upheld maintained & kept in repair by the said John Berrien his Heirs and Assigns forever; the income & profits of the said Pier to be & remain to & for the Use of the Mayor Aldermen & Commonalty of the City of New York their Successors & Assigns forever, Excepting thereout so much of the said Pier as fronts the East River, the income & benefit of the same to be taken & received by the said John Berrien his Heirs & Assigns forever."

On the Question being put whether the Prayer of Doctor Cochran's Petition could [304] be granted it passed unanimously in the Negative.

Therefore Resolved that the Prayer of the said Petition of Doctor John Cochran cannot be granted.

Ald^a Bayard then moved that a further Compensation be made Doctor Cochran for the said Water Lot; & it passed in the Negative.

Mr Recorder laid before the Board a Letter from his Excellency the President of Congress directed to Mr Mayor enclosing a Request of Congress "that the President address a Letter to the Mayor of this City informing him that the Debates of Congress being frequently interrupted by the passing of Carriages, Congress are desirous of ordering Chains to be provided for preventing such Interruption during their daily Sessions if the Measure is not disagreeable to the police of the City"

Whereupon the Board came to the following Determination.

This Board being chearfully disposed to accommodate the United States in Congress assembled to the utmost of their Power Do hereby signify their Consent & Approbation that, that hon^{ble} Body should order Chains to be drawn across the Streets from the North East, South East & South West Corners of the City Hall to prevent the Noise of passing Carriages during the Hours of their daily Sessions.

Whereas it hath been represented to this Board in behalf of M^r Lawrence Embree one of the Commissioners of the Alms House that the Company of Comedians in this City some time since presented him with Forty Pounds for the use of the Poor—that altho' he disapproved of a Donation so circumstanced he thought it his Duty to suffer it to be deposited with him until the Sense of the Magistrates respecting the same could be obtained. Whereupon the Board came to the following Resolution viz^t

[345] Resolved that it appears that the Play House was opened by the said Company of Comedians without the License or Permission of the civil Authority which in the Opinion of this Board is a Thing unprecedented and offensive.

Resolved that, while so great a Part of this City still lies in Ruins and many of the Citizens continue to be pressed with the Distresses brought on them in consequence of the late War, there is a loud Call to Industry and Economy: And it would in a peculiar Manner be unjustifiable in this Corporation to countenance enticing and expen-

^{Theatre}
sive Amusements. That among these a Play House however regulated must be numbered, while under no Restraint it may prove a fruitful Source of Dissipation Immorality and Vice.

Resolved that the Acceptance of the said Donation, by the Advice

of this Board might authorize a Conclusion that they approved of opening the said Theatre And that therefore it be and it hereby is recommended to Mr Embree to return the same to the Person from whom he received it.

Ordered that the foregoing Resolutions be published in all the News Papers of this City.

[346] The Season in which fires most frequently happen in this City being approaching Ordered that the Law of this Corporation for the better preventing of Fire be republished in all the public News Papers of this City.

The Returns of the late Elections in the South and West Wards pursuant to the order of the 19th Ult^o were respectively read from which it appears that John Bancker was duly elected an Assessor in the South Ward in the Stead of Abraham Van Wyck deceased, and that Henry Roome was duly elected an Assessor in the West Ward in the stead of John Van Cortlandt

Mr Henry Roome attending, informed the Board that the Inspectors of the late General Election in the West Ward had refused to admit him to the Right and Privilege of giving his vote at the said Election for Governor &c &c &c. alledging that he came within the Discription of those Characters which by Law were prohibited from voting; that he conceived if he was not qualified to elect, he could not be qualified to be elected, And therefore as well as on Account of his Weak State of Health he could not take upon himself the execution of the said office of Assessor. Mr Roome being then informed by order of the Board that his Reasons for refusing to accept the said office were insufficient to Justify the discharging him from the said office, he was called upon to take the Oaths of Allegiance and of office as by Law is directed, which he refused to do

[420] Whereupon it was ordered that he pay a fine of forty Shillings to the use of this Corporation.

Ordered that an Election be held in the West Ward on Wednesday the thirty-first Instant of an Assessor in the Stead of the said Henry Roome, And also that an Election be held on the same day in the Out Ward of an Assessor for the Bowery Division in the stead of Jacob Harson who is rendered incapable of serving by reason of his being in the close Custody of the Sheriff on a Process issued out of the Court of Chancery.

It is further the opinion of your Committee, that if a New Bridge commonly called the Coffee House Bridge is Permitted to be made, it ought to be placed in the middle of that part of the Street between Water Street and the East River, fronting the Coffee House &c. afores^d and that the present Coffee House Bridge ought to be removed. John Johnson admitted & sworn a freeman of this City & ordered to be registered.

M^r Malcom (in behalf of Aldⁿ Neilson) delivered in the follow^s Report on the Subject of Measures which was read & agreed to by the Board viz.

The Committee to whom was referred the Subject of the weights and Measures at present used in the City Report.

That by Various experiments they have ascertained that the Standard Gallon Measure in the possession of the Clerk, by which Mr William Hardenbrook has for Several Years last past regulated the wine Measure of the City, Contains one Gill and about a Quarter of a Gill, more than a Vessel whose contents is equal to 231 Cubical Inches and which by the Law of this State, ought to be the standard, or rule for determining the Quantity of one Gallon wine Measure—That to ascertain the Nature of the Complaint made by the Petitioners with the Greater Exactness & precision the Com [446] mittee have had Vessells of Different form prepared equal to the Measurement of 231 Inches. and have Compared the Quantity which they respectively contained with each other and with a Standard, Stampd measure rec^d some years ago from the Exchequer of England by Willett Seaman, and find them all to contain an Equal Quantity, but $1\frac{1}{4}$ Gill less than the said Standard Gallon Measure in the possession of the Clerk. This discovery having been made enduced your committee to examine Mr Hardenbrook upon the Subject, that they might be enabled to State to the board. the reason why the Standard Gallon rec^d by the Corporation from England some years ago differ'd so much from the one rec^d by Willett Seaman from the same place & with the same Stamp, and also from the Vessells provided. for the Experiments made by the Committee, and Mr Hardenbrook related upon the Subject as follows Viz^t "that in the Year 1770 he rec^d a warrant to Seal Weight's and Measures—that he then sent to England for a Sett of Weights & Measures to be proved at the Exchequer—that when they arrived he compared them with those then in use in the City, and found the Weights in the possession of Mr Myers lighter, upon which he applied to Mr Mayor Hicks for directions, who ordered him to regulate those rec^d from England by those previously in the City—that he also compared the Measures—& found those rec^d from England to contain less than the old ones, upon which he again apply'd to the Mayor for Directions, and as in the former case. was ordered to regulate by the old measure, and which weights & Measures have continued to be the standard from that date—That your Committee having carefully examined & Considered the Law entitled "An Act to ascertain weights and Measures within this State passed Ap^l 10. 1784" are fully of Opinion that the Standard Measure of the Exchequer in that part of Great Britain called England, is by the true construction [447] Intent. & Meaning of the said Act established as the Standard of this

State—And therefore that an Order of Common Council be immediately made for providing and depositing with the Clerk of the peace or Common Clerk of the City & County a sett of Measures to be hereafter used in the State agreeable to the Law herein before mentioned—all which is nevertheless most Respectfully suubmitted

July 19. 1786

Henry Will "

W. Malcom

Ordered that the same Committee cause a new Sett of liquid Measures to be made agreeable to the above Report & present them to this Board for their inspection & approbation. And also that they examine & report the State of the dry Measures & Weights in possession of the Clerk or Sealer of this City.

Aldⁿ Wool from the Committee on the Powder Magazine delivered in the follow^g Report which was read & agreed to by the Board viz^t

" The Committee to whom was refered the application of M^r John Gilbert storekeeper of the powder Magazine, Report

That they are well informed that a Magazine for the Storage of powder has lately been erected at Brooklyn, the proprietors of which propose to store powder therein at a lower rate than what has heretofore been charged by the Corporation—That unless the Board shall think proper to reduce the rates of Storage, the Merchants and others who deal in powder will apply to the Magazine at Brooklyn, [448] by which means the revinues of the Corporation will be considerably deminished—And therefore the Committee Recommend that untill the further orders of the Common Council M^r Gilbert be directed to charge for the Storage of powder to be deposited in the City Magazine at and after the rate of 3/6 P C^{mt} all which is nevertheless Submitted.

Aldⁿ Neilson informed the Board that the Night before last a quantity of Combustible Matter with a Brand of fire was discovered in the Yard of M^r Lemontis Noe & that it appeared to have been put there by some wicked Incendiary with design to set fire to the adjacent Buildings—that the Neighbours had subscribed a Paper (which he produced to the Board) engaging to pay the Sums set opposite to their respective Names (amounting in the whole to £50) to any Person who should discover the Perpetrator of the horrid & dangerous Act, & submitted to the Board the propriety of publishing the above Reward with such addition as the Board should [528] think proper to contribute.

Ordered that the Clerk cause the said Reward to be published in the News Papers.

M^r Mayor laid before the Board a Letter with some Papers from M^r Phoenix the Treasurer in which he requests some further Direction as to the paying of Monies on Orders from the Board which appeared in some Measure to counteract their Resolution of the 27th of Dec^r last appropriating the Revenues of the Corporation to payment of the Interest of Monies taken on loan—Also some further Direction as to the Disposition of the Barracks which were going to ruin for want of Repair & yielded a very trifling Emolument—Among the Papers were an Estimate for the ensuing Year of the Sums required for the Sup-

port of the Poor & public Contingencies of the City and also an Abstract from his Acc^t from which it appears that the Corporation had expended a very considerable Sum arising from their Revenue in the payment of Contingencies which ought to have been defrayed by public Tax.

With respect to second about the Barracks M^r Mayor informed the Board that the Commissioners of the Alms House had represented to him that the Hospital [529] of the House was very much crowded with the sick and that it would be necessary to provide more Room & to that end suggested the propriety of appropriating some part of the Barracks to that use; Whereupon it was ordered that Aldⁿ Lott & the Aldⁿ & Assistants of the West & Out Wards be a Committee to enquire into & report to the Board on the Subject And as to the Estimate delivered in by the Treasurer it was ordered that Aldⁿ Bayard & Neilson & M^r Ten Eyck be a Committee to request the City Members in the Legislature to procure an Act for raising the Monies necessary for the Support of the Poor &c of the City the ensuing Year, and that the said Abstract from the Treasurers Acc^{ts} be delivered to the City Members that they may be enabled (if necessary) to shew the Necessity of the Tax. And (on a Suggestion by Aldⁿ Neilson) it was further ordered that the said Committee prepare a Petition to the Legislature praying a Law for laying a Tax on Seamen similar to that of Greenwich Hospital for the Support of Indigent & distressed Seamen, who should from time to time be unavoidably sent to the Poor H^s.

Ald^a Gilbert, for the information of the Board, produced an Acc^t of the Monies by him rec^d as Commissioner of Excise since the first Day of March last amount^s to £854: 4/ which said Sum (after deduct^s £60 allowed him by Law for his Services) he had paid into the Treasury of this City

The Board thereupon proceeded to nominate & appoint a Commissioner of Excise for the ensuing Year And William W Gilbert Esq^r was unanimously nominated & appointed Commissioner of Excise for this City & County for the ensuing Year accordingly

[531] M^r Ten Eyck represented to the Board that the Treasurer had a Demand against his fathers Estate for Quit Rent due to the Corporation on certain Waters & that he conceived satisfactory Reasons could be offered for an abatement of the said Quit Rent

James Blanchard having by his Petition presented on the 27th Dec^r last offered to the Board to surrender the Lease from this Corporation to him of the Slaughter House by him erected at Corlaers Hook on the follow^s Terms viz^t The Corporation to purchase from him the said Slaughter House for the Sum of £400 & to give him their Bond for the paym^t thereof with Interest at 5 P C^t in three Years & to give M^r Blanchard a New Lease of the said Slaughter House for three Years he paying therefor to the Corporation the Yearly Rent of £147 in quarterly payments; And the Board having agreed to M^r Blanchards Proposals. That on the 12th July last a Petition of John M^cComb and Daniel Niven Praying a Grant of the said Water Lots to them was presented to the Board and referred to a Committee—that on the 13th September last the said Committee delivered in a Report which was read and agreed to by the Board, as follows. “The Committee to whom was referred the Petition of John M^cComb and Daniel Niven, Report that they have maturely considered the subject matter of the said Petition and are of Opinion that the object of the Petitioners if carried into effect would essentially promote the Improvement of the City and the Convenience of the Cetizens. But as the proprietors of the Lots in front of that part of the River which the Petitioners pray for may claim the customary preemption to the Grant, Your Committee recommend to the Board that a Copy of the Petition be served on John Watts Jun^r who acknowledges himself to be the Agent for the said proprietors and Acts as such, and that he be informed that unless the said Proprietors or their agent shall within

the space of Six Weeks after the date of such Notification take up a Grant of the Soil prayed for by M^r McComb and M^r Nevin and engage to make Improvements equally beneficial to the public as those which are expressed in their proposals, that in such Case and [579] at the expiration of the said Six weeks a Grant will be made to the Petitioners agreeable to the prayer of their Petition, And Your Committee further recommend that in case no such application be made and Stipulations for immediate Improvements be entered into on the part of the Proprietors by themselves or agents before the expiration of the said Six Weeks that then and in such case a Grant be accordingly made to the Petitioners," That on the 15th November last John Watts Esq^r on behalf of the proprietors of the Estate of Sir Peter Warren deceased preferred a Petition to the Board by which he agreed to accept a Grant of the said Water Lots on the Terms offered by Mess^{rs} McComb and Niven and prayed a Grant accordingly, which Petition was read and granted and a Committee appointed to consider of and report the quit Rent which ought to be reserved thereon, that on the 21st March last the said Committee delivered in a Report which was agreed to by the Board, "that 190 feet from the extent of the former Grant into the River be granted reserving a quit Rent of 3^d P^r foot per Annum and that the proprietors run a Pier along the Slip the whole extent of the Grant for a Street to be completed in two Years," And it was ordered that the Clerk prepare the said Grant accordingly—That from the paper delivered by M^r Watts to the Board the last Meeting containing the substance of his Correspondence with the Heirs of Sir Peter Warren deceased in England on the subject of the said Water Lots as also from M^r Watts's Conversation with the Board it appears to your Committee that the said Heirs of Sir Peter Warren dec^d are by no means desirous of accepting a Grant of the said Water Lots on the Terms offered by Mess^{rs} McComb and Nevin, and that they have not authorized M^r Watts on their behalf to [580] accept the said Grant and make the necessary Improvements—And as the Wharfing out and improving the said Water Lots is become very necessary for the public Convenience, and the whole Neighbourhood are very desirous that the said Water Lots be granted to Mess^{rs} McComb and Nevin to the end that they may be wharfed out and improved without delay, and the Season for that Business is far advanced Your Committee are of Opinion that as the Board cannot be charged with any partiality on this Occasion in their Conduct or a Want of attention to the Heirs of Sir Peter Warren dec^d the said Water Lots be granted to Mess^{rs} McComb and Nevin on the Terms by them heretofore of.

ferred. Which is Nevertheless submitted to the Board by their Committee.

"Having considered the Matters referred to us by the honorable

"the Common Council of this City, We are of Opinion that the legal Estate in the Land in front of that granted to Thomas Clarke being in the Corporation their Lease to David Provoost was of course valid and sufficient to vest the Term in him but we are at the same time also of Opinion, that that Lease was a breach of the Covenant to Clarke by which it is stipulated that he and his Heirs and Assigns should have the free and full use and enjoyment of the Wharf to be erected by him; inasmuch as the Wharf and Streets made by Provost obstructed a part of the Wharf built by Clarke. And we further think that a Grant of the Reversion of the Land, demised to Provost to his Representatives would be an additional breach of the Covenant to Clarke: But a Grant of that land to the Representatives of Clarke or to any other Person cannot be made so as to take effect in possession during the continuance of the Term. We are also of Opinion [589] that any Grant of the Residue of the Land in front of that granted to Clarke would be a breach of the Covenant to Provost securing to him the free and full use of the Wharf erected by him. In this State of Things it will remain for the Corporation to decide what Disposition of the Lands in Question will be most prudent and attended with least disadvantage

We the Subscribers to whom was referred a Petition lately preferred to this Board by Daniel Nevin and others setting forth that some Buildings are now erecting at the lower end of Cortlandt Street in the West Ward of this City by which the Street or Passage along the South Side of the Slip there, is greatly contracted and rendered very Inconvenient to Passengers in Crossing the North River, and that the said Obstructions are on Publick property. Do Report that we have inquired into the Allegations and Complaint of the said Petition. And find that in the Year 1701 a Grant was made by the Corporation of the City of New York, to Peter Jansen Mes^{ier} whereby they released

and conveyed to him his Heirs and Assigns a certain Piece or Parcel of Ground in the said West Ward, from High to Low Water mark Containing along the Strand at high Water Mark, and in the Rear at Low Water Mark 18 Rodd. 2 feet and 8 inches, and in Depth on the South and North sides thereof from high to Low Water Mark 93 feet or thereabouts.

That we also find that in the Year 1760 a Grant was made by the said Corporation of a Water Lot to Abraham Mesier, the same lying in Front of part of the said Ground conveyed as aforesaid to the said Peter Jansen Mesier, and Containing [604] Seventy four feet and an half in breadth, and in length from Low Water mark into Hudsons River 200 feet, the said Abraham Mesier to build a Wharf Street or Pier of 18 feet English Measure in Breadth, to front a certain Street or Publick Slip there to be made leading from Cortlandt Street to Hudsons River.

That we further find that the said Cortlandt Street was originally forty feet in Breadth, but that the Owners of the Ground there have given up five feet on the North and South sides thereof to make the said Street fifty feet.

That we have reason to believe that the Complaint in that Petition points at a Dwelling house now building by Abraham Bussing on the South side of the said Cortlandt Street.

That if the said Complaint respects the said Dwelling House as we believe it doth, the same appears to us to be Ill founded, because we are of Opinion that the House is not an Encroachment on the Publick Property, but that the same is built on part of the Ground Conveyed as aforesaid to the said Peter Jansen Mesier and not on Ground comprehended within the Grant to the said Abraham Mesier, as the Petitioners seem to believe from their referring this Board to the aforesaid Grant to him.

That in order to be ascertained of the said Fact we have made due Inquiry, and from the best Information we could collect and other Evidence which the view of the place afforded us, We have not any doubt that the said Abraham Bussing had an Indisputable right to place and erect his said House in the manner he hath done, the same being on his own Soil, and built according [605] to the Directions of John MaComb one of the City Surveyors on a Parrallel line with the other Houses on the South side of the said Street.

That we are of Opinion, in case the said House was Actually built on Ground reserved to this Corporation in the Grant to the said Abraham Mesier, it would not have been proper to have placed it out of

the Range of the said Street, because the same would necessarily Occasion a break in the said Street, and Spoil the Uniformity and Beauty thereof.

That we are of this Opinion, because we think that the said Street of the breadth it now is, is sufficiently wide to answer all the Purposes of a Publick Street, taking even into Consideration its connection with a Publick Ferry.

Upon the whole this Committee are of Opinion that the Petitioners (whatever Commendation they may deserve for their Extraordinary Vigilance Zeal and Attention to the Publick Interest) are mistaken as to the matters suggested in the said Petition, and that no such Encroachments as yet have been made on the Property of the Publick as are set forth in their said Petition

A Petition of Peter R Kissam was read setting forth that he has an Intention of purchasing the Right of James Barrett to a certain Lot of the Corporation at Pecks Slip which the said Berrard purchased at Vendue for the Term of 21 Years from the first [606] Day of May last at 35/ p^r foot p^r Annum that the said Barrett having left the City the said Lot remains unoccupied—that the Price of the said Lot exceeds the price of the adjacent Lots and is more than the Business at that place will afford Wherefore the said Peter Kissam proposes to purchase Barretts Right & become answerable for the Rent from the first of May last Provided the Corporation will grant him a Lease for the same for 21 Years at the Rate of thirty Shillings P^r foot per Ann^m

Ordered that the Clerk prepare a Lease to M^r Kissam for the said Lot accordingly

The Petitioners have therefore no other Claim on the Corporation for the Loss [55] of their Powder than what is customary in the storage of other Merchandize; and in such Cases the Store Keeper is accountable only for his neglect or imprudence Your Committee are therefore of Opinion that the Prayer of the said Petition ought not to be granted."

To the President of the United States

Sir.

The Mayor Aldermen & Commonalty of the City of New York beg leave to offer you our most respectful and affectionate Congratulations on your safe arrival in this Metropolis; and at the same time to express the general Joy of our fellow Citizens of every Order on this auspicious Event

In thus presenting ourselves before you we experience all the Emotions which naturally arise, from a high veneration for your Character, an exalted Sense of your Services, and a perfect conviction that a Trust the most momentuous which could be conferred by a free People has been committed to a Citizen who has [205] given unequivocal Proofs of his possessing all the good and great Qualities requisite to it's successful Discharge.

With peculiar Pleasure Sir, we recall to mind that illustrious display of Wisdom Virtue and Valour which distinguished your military Command: With equal Pleasure we recollect the exemplary Moderation which marked your Retreat from the head of a victorious Army to the Shade of private Life. Permit us to add that we contemplate with pious gratitude that unparelled coincidence of circumstances, which has constrained you, by Motives that Patriotism could not resist, to reingage in the arduous Duties of a public Station.

Long in the habit of revering you as the Father of our Country, we rejoice at the happiness of being once more placed under your Protection; we consider the Unanimity, which prevailed in your Appointment, as a presage that our national Government will be firmly established in the Hearts of all the People and receive their united and zealous support, and we are fully persuaded that, under the Divine

Favour, it's operation will be productive of the most extensive Benefits and Blessings, and render the Union as respectable in Peace as, under your Auspices, it was triumphant in War.

To our most fervant Wishes for your personal Happiness and for the Success of your Administration we should not do Justice, to the Sentiments of our fellow Citizens, if we did not add the [206] strongest Assurances of their inviolable Attachment to you and of their earnest Disposition to render you all the Support which can flow from the most cordial Respect, Gratitude and Confidence.

Mr Mayor & the Members of the Corporation with their proper Officers having waited on the President of the United States & presented the Address of this Corporation, He was pleased to make the following Answer thereto viz^t

"To the Mayor Aldermen and Commonalty of the City of New York. Gentlemen

The affectionate Address presented by the Magistrates and the general Joy testified by the Citizens of New York, on my Arrival in this Metropolis, have filled my Mind with the mingled emotions of gratitude and satisfaction.

In accepting the momentous Trust which has been spontaneously committed to me by a free People; it was not enough to have felt a consciousness of having acted in conformity to the dictates of Patriotism; it was not enough to have known that [210] I met the wishes of my fellow Citizens but it seemed that these farther Pledges were wanting to overcome the diffidence I had in my own Abilities and the Reluctance I experienced at engaging in such new and arduous Affairs

Unelated by your too favorable appreciation of my past Services, I can only pour forth, the effusions of a grateful Heart to Heaven, if I have been made in any Degree an Instrument of good to my Country. And although I am far from claiming any Merit for retiring in the manner I did from a military Command to the Shade of private Life; Yet I am pleased to find that your candor has done Justice to the Principles by which I have been actuated on the present Occasion. No circumstance in my conception can be more consolatory to a public Man, especially to one truly sensible that the purest Intentions cannot always preserve him from Error than a knowledge that his Countrymen are disposed to consider the Motives for his Conduct with that liberality which is reciprocally necessary for all who are subject to the frailties of human nature.

In this place I cannot avoid expressing an anxious apprehension that the partiality of my Countrymen in my favor has induced them to expect too much from the exertions [211] of an Individual. It is from their co-operation alone I derive all my expectations of Success. Indeed the unanimity which has prevailed in some Instances is a happy presage that our national Government will be firmly established in the hearts of the People, and receive their united and zealous support From the accomodating spirit which has been displayed in respect to the Constitution I anticipate that the Government will in its operation be productive of the most extensive Utility, by rendering the Union as respectable in Peace as it was tryumphant in War.

I feel a just Sense of your fervant Wishes for my personal happiness and the Success of my Administration. I pray you Gentlemen to accept in return my cordial Thanks for these demonstrations of your Affection as well as for the assurances you have given of the attachment of your fellow Citizens

Ordered that Aldⁿ Elting & Mess^{rs} Nicholson & W Van Zandt be a Committee to confer with the Representatives of this City in the Legislature of this State on the most eligible Measures of obtaining from the State for the use of this City the Lands at the Fort & Battery & Nutten Island And also on the Subject of providing by Lottery or otherwise Monies, beyond what are alrea[dy] directed to be raised by Tax, to defray the Expences of the improvements & Repairs to the City Hall.

Ordered that M^r Mayor retain out of the said Money six Shillings

on each Licence being so much allowed to him by this Board as usual for performing the Duties of his Office as Mayor & that he pay the like Sum on each Licence to the Clerk of this Board for his Services and the Residue to the Treasurer of this City for the use of this Corporation.

Mr Mayor also laid before the Board Acc^{ts} of Fees by him received as Clerk of the Market from the 1st febr^y 1787 to the 31st Jan^y 1788 amounting (after deducting Ab^m Van Gelders & Rinier Skaats allowance for collect^s to the Sum of £580:15/ of which Mr Mayors Moiety is £290:7:6—Also from the 1st febr^y 1788 to the 1st febr^y 1789 amount^s (after deduct^s as aforesaid) to £584:0/ 6^d of which Mr Mayors Moiety is £292/ & 3^d And from Certificates of the auditing Committee (which were also produced) it appears that Mr Mayor had paid the other Moiety of the Amount of said *the said* Fees for the said two Years into the Treasury of this City for the use of this Corporation.

[224] A Petition of the Proprietors of Lots in Chesnut Street (covering a Release from sundry Persons to this Corporation of their Right to the Ground which forms the said Street Also a Release from Evert Bancker to this Corporation of part of a Lot across which the said Chesnut Street passes into Bancker Street) praying an Ordinance for paving the said Street was read & referred to the same Committee as above.

said House by consent of M^r Moore and M^r Matthews then Mayor at his own Expence Wherefore it appears reasonable to your Committee that M^r Ryersen be permitted to remove the said Building leaving the Wharf & paying to the Corporation five Pounds for the Window Glass Bricks &c which are added to the Building.

That the Treasurer informed your Committee that M^r Ryersen objected to pay the second and third Years Rent of the Ferry to staten Island—that your Committee have enquired the Cause of such refusal of M^r Ryersen who saith that he did occupy the said Ferry for four Years as stated by the Treasurer, that he only agreed to pay twenty Pounds for the first & last Year each and that the second & third Year were not agreed for and therefore supposed himself not bound to pay for that period Your Committee are of opinion that M^r Ryersen ought to pay for the full four Years

An Estimate & Assessment for the paving of Church Street was read & ratified by the Board; and John Moore was appointed to superintend the paving of the said Street and to receive the Monies in the said Assessment mentioned.

The Committee appointed to obtain an Estimate of the Expence of making a Bulkhead across St James Slip reported *reported* Estimates of two or three different Persons Whereupon it was ordered that the Committee make enquiry into the Ability of the respective Persons making Proposals and that they conclude a Contract with such Person for making the said Bulkhead as the Committee in their Judgment shall conceive most advantageous for the Corporation.

[307] Ordered that the Proprietors or Occupants of the Lots in the lower end of St James Street be and they are hereby required to *to* fill up the said Street, from where the Pavement ends, so as to make it more convenient & passable.

* Marginal note reads *Broadway*.—Ed.

Mr Mayor laid before the Board the follow^g proposition from the Commissioners of the Alms House & Bridewell viz^t

“Whereas the Board are of Opinion that the Alms House, which was originally designed for the accommodation of the Poor of this City & County, is become too much of a common Receptacle for idle intemperate Vagrants, many of whom of right have no lawful Residence in this Place and who by pretended Sickness or otherwise, often impose on the Magistrates of the City, by which Means the House is overcrowded with numbers of abandoned Characters, greatly incommoding those who are real Objects of Charity as well as imposing on the industrious part of the Community

Therefore resolved That Willet Seaman, William Hardenbrook & William De Peyster be a Committee who are requested to wait on the Mayor to converse with him on the propriety of appropriating an Apartment in the Bridewell to be called the Work House in contradistinction from the Alms House & Bridewell, for the Reception of such Persons from the City who may apply to the Magistrates, and are not real Objects of Charity, And also from time to time of such Persons from the Poor House as may have repeatedly broken the Rules and Orders of the House and by their [308] Intemperance & Turpitude, rendered themselves undeserving of that Attention and Compassion due to the more orderly Objects of the House and at the same time suggesting to the Mayor the Wish of the Board that if this or some such Plan meets his approbation, he would be pleased to lay the same before the Corporation And that the Commissioners would beg leave to propose that those Persons who may be sent to the Work House may have nearly the same kind of Accommodations as those in the Alms House—only so far confined as to prevent an undue Traffic for strong Liquor and to be kept closely at Work and that at any time on their own request they might be discharged.”

The said Proposition or Plan being considered by the Common Council was approved And it was ordered that the Commissioners take order for carrying the same into execution.

It being suggested to the Board that the public convenience might be very much promoted if the lower end of Golden Hill Street where it enters Queens Street could be widened; And it being conceived probable that the proprietors of the two Corner Lots which are bound by the said Street would be willing to dispose of a part of their Lots for the purpose and that the neighborhood would bear the Expence.

[309] Ordered that the Aldⁿ of the East & Montgomerie Wards & the Assistant of the East Ward be a Committee to enquire into the

Subject & to report to the Board whether any & what part of the said Lots can be obtained and on what Terms & what proportion of the Expence each proprietor in the Neighbourhood will be willing to bear

Ordered that John Utt be appointed a Fireman to Engine N^o 13th vice Corn^s Bicker

Ordered that they be notified to attend at the next Meeting.

Whereas the Commissioners appointed by the Statute passed the 7th day of April 1787 entitled "An Act to amend an Act entitled "An Act supplementary to an Act to appoint Commissioners to settle & adjust any Differences which may arise between the Proprietors of certain Lots in the City of New York, the Buildings whereof were burnt in the Year 1776 and for altering the Streets which heretofore were laid out adjoining to such Lots." by their Report presented to this Board and entered on their Minutes on the third day of March last, did determine & award to Susannah Van Winkel as proprietor of a certain Lot of Ground in Greenwich Street the Sum of £224 as full compensation for her Loss and the Damage she had sustained in consequence of said Greenwich Street being widened continued and extended, And this Board did on the third day of September last execute to [317] the said Susannah Van Winkel a Bond for the payment of the said Sum with Interest at five Per C^t per Annum And whereas it now appears to this Board that the said Susannah Van Winkel died before the making of the said Report by the said Commissioners and the execution of the said Bond by this Board as aforesaid And it further appears to this Board that David Baldwin of Saddle River in the County of Bergen & State of New Jersey Carpenter the Son of the said Susannah Van Winkel was, at the time of the making of the said Report by the said Commissioners, the Proprietor of the said Lot of Ground and not the said Susannah Van Winkel And whereas the said Bond hath been returned to this Board and delivered up and cancelled And the said David Baldwin by David Morris his Attorney hath applied to this Board for payment of the said Sum to him in compensation for the loss of part of the said Lot as aforesaid.

Thereupon ordered that M^r Mayor issue his Warrant on the Treasurer to pay David Morris as Attorney to the said David Baldwin the said Sum of £224 in full compensation for the Loss of part of his said Lot as aforesaid; deducting thereout the Sum of £10:6:7½ to reim-

burse this Board for so much by them advanced for paving the Street in front of the said Lot

[318] And Whereas this Board hath borrowed of Isaac Roosevelt Esq^r the Sum of £213: 13: 4½^d for the purpose of paying of & satisfying the said David Baldwin as aforesaid Therefore ordered that a Bond from this Corporation to the said Isaac Roosevelt for the said Sum of £213: 13: 4½ with Interest at 5 P C^t per Annum from the said third day of April last be made out that the Seal of this Corporation be affixed thereto & that M^r Mayor subscribe the same on behalf of this Board.

George Peck & Francis Arden not having appeared to shew Cause why they should not be removed from the Office of Firemen, on the complaint of the Company of Engine N^o 5. Ordered that they be removed from their said Office & that their Names be *struct* [struck] off from the List of Firemen accord^{ly}

On a suggestion to the Board that from the great inequality of the Wards of this City in respect to extent & number of Houses & Inhabitants the Duties of the several public Officers was become very unequal & Burthensome and that a Revision of the Boundaries of the several Wards would have a beneficial Tendency on the Police of this City, Ordered that M^r Recorder & Aldⁿ Van Zandt & Stoutenburgh & Mess^{rs} Pintard & M^cCrea be a Committee to take this Subject into consideration & to report their Opinion thereon.

[320] Ordered that M^r Mayor issue his Warr^{ts} on the Treasury to pay

Mr Recorder informed the Board that the Committee appointed to treat with the Mayor on the subject of giving him a Compensation for his trouble in executing the Office of Mayor instead of the Fees usually allowed him were ready to report Whereupon Mr Mayor left the Chair & withdrew And Mr Recorder took the Chair and read the said Report and the same being again read & duly considered was

unanimously agreed to & adopted by the Board; and is in the Words following viz^t

[324] "The Committee appointed to treat with the Mayor on the subject of giving him a Compensation for his trouble in executing that Office, instead of the Fees usually allowed him. Report.

That from their estimates founded on the best information they have been able to obtain the late Mayor received during his Mayoralty as Fees and perquisites of his Office the Sum of Four Thousand five hundred Pounds or thereabout, which makes upon an average about Eight hundred Pounds a Year. That during the two first Years of his Mayoralty, he Appropriated to his own use the whole produce of the Fees arising from the Markets and Tavern Licences, but that for the three last Years the Corporation have received for the use of the City, one half of the produce of the Fees arising from the Markets and Eighteen shillings for each Tavern Licence; And therefore his Fees and perquisites for the latter period, have averaged only about Six hundred Pounds a Year. That the Fees of the Markets for the last Three Years have upon an average amounted to about Two hundred and Ninety Pounds a Year, and the Fees for Tavern Licences during the same period to about Two hundred and ten Pounds a Year, That no certain estimate can be formed of the Yearly amount of the Fees received by the Mayor of this City, on making Freemen, or Licences to Cartmen, Butchers and others, and on appointing Marshalls and other Officers in the City. The Committee are therefore of opinion, that it would be proper, and have proposed to the present Mayor to pay him at [325] the rate of Six hundred Pounds a Year, to commence the first day of January next. in Quarterly payments; in lieu of the Fees or perquisites he is entitled to, or may claim out of the Fees arising from the Markets, Tavern Licences, and the other particulars above mentioned; And that he should account and pay to the Corporation for the use of the City, such Fees as he may hereafter receive, on account of any of the particulars aforesaid, And the Committee have reason to believe that the Mayor will accede to the said Proposals."

Mr Mayor being returned the said Report was communicated to him and he was pleased to express his concurrence in the said Report and that he acceded thereto Provided that the same be not construed to affect the Rights or Privileges of the Mayor for the time being, in respect to any of the Fees or Articles mentioned in the said Report which the Mayor of this City hath heretofore claimed or enjoyed.

That having inquired into the State of the Tax, and the Sums already expended, they find that there is about the Sum of £3789:7:6 Still to be expected from that Assessment, including the amount of Arrears part of which ought to be paid into the State Treasury, there will not be more than sufficient to support the Publick Institutions to the first day of April next, agreeable to the foregoing Estimate. That as it is not possible to make any further Payments to the Bank towards the Ballance due them of £1502:4:11. The Committee are of opinion that it would be proper to compleat a settlement with the directors, by giving an obligation for the Amount due, if in Specie [327] making the usual discount, which settlement will pay the whole Amount of Interest on the Bond of £9000 to the first of January next, and enable the Treasurer out of the Monies still to be collected to pay to James Nicholson the Ballance on his Warr^t for Arrears due on the City Hall. The great Amount of the Debt due from the Corporation will naturally suggest the necessity of applying some part of their Revinew if not the whole to the payment of it, so that not only the accumulation of Interest may be prevented but some considerable part of the Principal paid off Annually.

The following Report was received and after being read & considered was agreed to by the Board viz^t

“The Committee appointed to devise & report the most eligible manner of disposing of the Stalls & Standings in the several Markets in this City and to enquire into the State and Circumstances of the public Slaughter House and to report their Opinion as to the future Disposition of it at the Expiration of the present Lease.

Report That on mature Deliberation the present Regulations respecting the public Slaughter House appear to be attended with very considerable Inconvenience [332] to the Butchers, productive of little or no good consequence to the Community & the actual Revenue arising therefrom to the Corporation is considerably less than what might be expected or may be obtained by the Mode hereafter mentioned.

That in the Opinion of the Committee the Butchers will be greatly accommodated, by being permitted to slaughter at their own Houses, subject to such Regulations as the Corporation may establish; whereby the Expence of keeping a public Slaughter House will hereafter be saved.

That it is the Opinion of the Committee that the present Slaughter House should be let out for the space of one Year after the expiration of the present Lease, free of any charge of Repair to the Corporation, for the purpose of accommodating such Butchers as may not be immediately provided with private Slaughter Houses & allowing them time to erect the same.

That in order to prevent the necessity of maintaining a person for the purpose of going from one Butcher to the other to inspect their Slaughter Houses & collecting the Fees as rated at present [333] which would be attended with infinite trouble and expence The Committee are unanimously of a Sentiment, that one single rate be laid on the Stalls of the several Markets in manner hereafter set forth in lieu of all Slaughter House & Market Fees whatever.

That the Rate of Stalls in the Fly Market be estimated at forty Shillings per Month, in the Oswego Market at thirty Shillings per Month & in the Exchange Pecks Slip and new Market at fifteen Shillings per Month

That the Fees of the Fly Market now containing 44 Stalls with the addition of 3 more Stalls making in all 47 Stalls will at the above mentioned Rates amount per Month to.....	£94
That the Fees of the Oswego Market containing 16 Stalls will amount to	£24
That the Fees of the Exchange containing 10 Stalls will amount per Month to.....	£7: 10: —
That the Fees of Peck Slip Market containing 4 Stalls will amount to	£3: —: —
And the new Market to.....	£0: 15: —

That in order to distribute the foregoing monthly rates on each Butcher agreeable to his respective Ability to bear the same the Committee are of Opinion that the Butchers of each respective Market except the new Market should elect [334] out of their own body two

or more assessors who shall be sworn to assess to each Butcher his proportion of the said Rates, to be collected monthly from each Market which Assessment shall be delivered in to the Corporation & when approved of shall be valid for the Term of one Year.

That the Clerk of the Market shall collect the amount of each Butchers proportion of said Assessment from said Butcher on the last Saturday of every Month & pay the Monies so collected into the Hands of the City Chamberlain

And that in case any Butcher shall neglect to pay in manner afore-said that on the third day of such neglect his Stall shall be sold at public Outcry to the highest Bidder & the purchasor shall be subject to the same rate as the former Occupant

Should the above Mode be adopted an annual Income of fifteen hundred & fifty five pounds will arise to the Corporation attended with little trouble & Expence in the collection & less liable to the inconveniences & impositions to which the present Mode is exposed."

A Petition of Ab^m Willson for a Remission of Quit Rent reserved on certain Water Lots at the North River was read & referred to Aldⁿ Stoutenburgh & Mess^{rs} Van Dyck & Janeway

The Committee on the Petition of Abraham Van Gelder, for an encrease of the allowance made him for superintending the lighting of the public Lamps, reported that in their Opinion the Sum of £65 per annum the present allowance is fully adequate to the Service; which was agreed to by the Board.

On a suggestion that the present Mode of storing the Lamp Oil in Cask was subject to great waste from leakage It was ordered that Aldⁿ Stoutenburgh & Mess^{rs} Van Dyk & Janeway be a Committee to report a proper [336] place for the erection of a Cistern with an estimate of the Expence.

the Alms House amounts to.....	£1799:17: 2½

The following Report was read & agreed to by the Board viz^t

[341] The Committee appointed to examine the Accounts of Samuel Maghee respecting the digging and carting away the Ground in that part of Chatham Street between S^t James Street & Division Street.

Report that the said Samuel Maghee undertook to perform the Work for the Sum of one hundred & sixty seven Pounds which was to be assessed on the several proprietors of Lots fronting said part of Chatham Street in the usual Mode. That on a Representation to the Corporation that the extraordinary Wedth of that part of Chatham Street, bore hard upon said proprietors, this Board resolved to defray such part of the expence as should appear reasonable & adopted as a Rule for their Judgment the plan referred to the Committee which was made out by M^r Gerrick one of the City Surveyors. That from said plan it appears that the whole of the Ground to be removed is estimated at 151.442 cubic feet That the Triangle in said Plan, which has been proposed to the Board as the proportion they ought to defray contains 22.369 cubic feet which at the rate of 151.442 feet to £167 will amount to £24:13:3½ but if to said Triangle containing. which appertain to those Streets in common with Chatham Street these two Sums of..... 32.555
will in like proportion amount to..... £35:17:11¼

Should the Board adopt the former Sum it [342] may be strictly complying with the Requisition made to defray the Expence of the Triangle, if the latter Sum, it ought to be deemed a generous contribution on the part of this Board tow^ds the Relief of the proprietors. It is moreover the Opinion of this Committee that the Sum paid in either Case should be deducted from the original £167 and be carried to the credit of the several proprietors agreeable to their respective proportions; which is humbly submitted by

A Letter from the Treasurer was read suggesting to the Board the expediency of issuing small Notes to pass as a circulating Medium in this City and thereby remove the inconveniency which hath arisen to the Inhabitants from the want of small Change since the ceasing to pass of the Copper Coin.

Whereupon Mr Pintard submitted to the Board the following Plan on that Subject viz^t

Whereas the Inhabitants of this City have experienced great Losses from the circulation of base Coppers insomuch as at present to put an entire stop thereto whereby great inconveniences arise from the want of small change especially to the poorer Class of Citizens

[348] In order to avoid the like ill consequences in future &

prevent the gross Impositions which have been sustained by the coining and circulation of base Coppers; the following Plan for emitting small Bills of the value of one Penny, two Pence & three Pence, to the amount of one thousand Pounds current Money of the State of New York, is respectfully submitted.

Plan for emitting the Sum of One thousand Pounds Currency in one hundred & fifty Six thousand Bills, of the value of one penny, two pence & three Pence viz^t

96,000 Bills of 1 Penny each is.....	£400
36,000 do of 2 Pence.....	300
24000 do of 3 pence.....	300
156000 Bills	£1000.

Which Bills shall be respectively printed in the following Words.

“ I promise to pay the bearer on demand.....by order
of the Corporation of the City of New York feby 26th 1790

Daniel Phoenix City Treasurer ”

These Bills as also the Signature can be printed without any Danger of counterfeit or the least possible Risk to the Corporation thereby; by which Means the trouble of signing may be avoided.

Should the Board concur in Opinion of the necessity of this undertaking, it would be proper that a Committee should be appointed to superintend and direct the Business subject to the Order of the Board and whenever any part of the [349] Bills are compleated & ready for emission that they be delivered into the hands of the City Chamberlain and so on until the whole are finished to be applied by him to the uses of this Corporation.

An exact Estimate could not be obtained of the Expences which might attend this Business—It is highly probable however that they will be more than defrayed by the inevitable Loss which will ensue from the wear & tear by circulation—The whole therefore may be safely submitted to the prudence & management of the Committee And as this Emission is intended for the more particular Accommodation of the poor Citizens it is presumed that the Committee that may be appointed will chearfully perform the Services gratis.

Should the Board adopt this or any other similar Resolution it may be well to publish their intention for the information of their Constituents, in order to prevent the return of bad Coppers into circulation again, as a small delay will be better than to submit to the former

inconvenience; especially if the Committee exert themselves the Emission may begin to circulate within a Fortnight

[380] The following Report was read & agreed to by the Board
viz^t

" The Committee appointed to prepare a plan for paving Broadway
from the new pavement at the Lutheran Church northwards Report
That in the execution of this Duty they have paid that attention which
the importance of so principal a Street required and have obtained
an accurate Survey of the same which accompanies this Report The
Result of their Opinion is that the regulation ought to take place from
the Corner of the Bridewell Fence and that the Crown of the Street
be continued in a right line from that place until it joins the new Pavement
at the Lutheran Church, by which means a regular uniformity
will be preserved which will contribute alike to the beauty as well as
the convenience of said Street. To accomplish this desirable object
few Difficulties occur in leading the Water off to the Westward as the
different Avenues to the North River in general afford every facility
that can be wished Some inconveniencies occur on the East side, to
overcome which two Modes present themselves. The one to lower the
several Streets [381] leading from the Broadway to Nassau Street and
Eastward, the other by constructing common Sewers under the intended
pavement of Broadway at the places hereafter designated. The Com-
mittee as well as the Surveyors employed on this occasion, are unani-

mously of Opinion that the latter is the most desirable as well as most practicable Mode and cannot be attended with such a Charge to the Corporation as to render it objectionable The Places where the Difficulty of leading off the Water occurs, are, the head of Fair Street, Little Queen Street and Trinity Church opposite Wall Street Fair Street is nearly a dead level to William Street which being already paved a material Injury would arise to dig it down so as to lead the Water Eastward from Broadway. Here therefore a common Sewer appears decidedly preferable. Perhaps in the course of the operation the Water may be led from the head of little Queen Street eastward, or partly through the Channel on the east side of Broadway which may be left to the Decision of the Committee employed to superintend the Work. At Trinity Church a Common Sewer appears indispensably necessary to lead the Water into [382] Wall Street, as the distance between Provoost Street and M^r Cortlandts Corner is too great to admit the Channels to drop sufficient to carry off the Water Altho' the Committee recommend the regulation to take place from the Corner of the Bridewell, they propose that the pavement should only extend as far as Vesey Street, consequently any future regulation must correspond and preserve the uniformity of Broadway, an object they consider of the utmost importance to the Beauty of the City as well as the credit of the Corporation—all which is humbly submitted.

This Warrant is marked N^o 145 but appears not to have been issued; as the then Clerk was accustomed to mark issued opposite the Warrant issued by the then Mayor which was not the Case with this Warrant. With respect to Broad Street that they have deliberately considered the Survey and Plan for the intended [434] improvement of said Street accompanying this Report and have also read a Petition presented to this Board against the adoption of said Plan. That it is the Opinion of your Committee that the said Plan should be adopted: but propose that the Petitioners be heard agreeable to the prayer of the Petition.

That your Committee have likewise read the Petition against the proposed Regulation of Nassau Street as laid before the Board, that they see no reason why the prayer of the Petition should be granted and therefore adhere to the original Plan.

The Committee have also read the Petition against the adopted Plan for the Regulation of Maiden Lane and consider the Reasons assigned as insufficient. The Committee therefore adhere to the original Report

The Subject of Burlings Slip being of a momentous concern Your Committee conceive themselves inadequate to decide thereon And propose that the whole Corporation view the premisses to enable them to decide with greater certainty whether it will be most expedient to keep open the present Common Sewer [435] for the Purposes and at the expence of this Board, or whether the same ought to be closed, or the Neighborhood allowed to keep it at their private expence: in which latter case that part of Queen Street at the foot of Golden Hill

must be raised and the Pavement leading East & West therefrom for some Distance at the expence of this Board. The point for contemplation being; which of the two Cases will ultimately be attended with the greatest benefit and the least Expence.

The Survey of Cherry Street was referred to the next Meeting in order to see how it accorded with the Principles of the general Survey taken last Winter

The Committee moreover report that the Survey of Dye Street from the Broadway to Greenwich Street be adopted on the following Principles viz^t that the said Street be regulated on a regular descent from the Pavement now laying in the Broadway to the Pavement in Greenwich Street agreeable to the Survey accompanying this Report.

The four following Reports were respectively read considered & agreed to by the Board viz^t

The Street Committee to whom was referred the Subject of erecting a Drain or Common Sewer at Burling Slip. Report.

That the draft accompanying this report is a section of a drain which in their opinion it would be most proper to construct, upon the following principles. viz^t To be two feet wide in the clear at the bottom, and at the height of two and an half feet, to be three feet wide, the bottom and sides to be built of Stone, the sides to be two feet thick the Crown to be of Brick and to Spring one foot and a half in diameter, so that the whole height of the drain will be four feet in the clear, under the Arch, and the Slope of the sides will facilitate the Passage of the Water, And that a well be constructed at the entrance of the drain of three feet and a half in diameter, with a grating over the Mouth, in order to receive the sand which may be carried down by heavy rains and in some measure prevent the [10] drain from being choked.

The Committee have moreover formed an Estimate of the Expence, which would attend building a drain or Common Sewer on the above Principles, and from a tolerable calculation, Judge the whole cost thereof, from the Head of Queen Street to the present Bulkhead in Burling Slip, being a distance of Three hundred and twenty eight feet, may amount to about Four hundred Pounds, being at the rate of Twenty four shillings Per foot nearly, provided such Stone and Materials as may be found in the present drain, be given to the undertaker.

The Committee are moreover of opinion that should the business

be undertaken, that the same be performed by Contract and Notice thereof given in the public Papers.

The Committee to whom was referred the Subject of the Widow Lawrences Petition for a grant of the Water Lot fronting her property on the West side of Beekman Slip. Report.

That the Prayer of the Petition ought not to be granted by reason that the Slip in its present situation is far from being sufficiently large and commodious for the Coasters which frequent it, arising more particularly from a Block sunk a few Years past over an old wreck which lay in the Slip on the East side thereof, which Block is so situated and takes up so much of the Slip that should the Prayer of the Petition be granted, the Slip would be so much Straightned and contracted as to exclude a large proportion of Vessels that might otherwise resort to it.

The Committee wish to impress this Board with the importance of preserving every Slip as wide and Capacious as possible, The increase of the City is naturally followed by a proportionable increase of the Coasting trade, The harbours for which are at present scarcely sufficient [11] for their accommodation and in a few Years they will be under the necessity of laying off in the Stream, or submitting to pay a heavy Wharfage to the proprietors of private Wharfs which must operate as a direct Tax upon the necessities of Life.

The Committee are therefore of opinion that it will be well in this Board, to countenance such measures which a Neighbourhood may adopt to extinguish the claim of preemption of individuals adjoining the public Slips, for the purpose of widening the same, As the Committee are well informed that it is the object of the Inhabitants about Beekman Slip to purchase if possible the right in the present instance, in order to widen and keep open forever the Water Lot, the front of which is the subject of the Petition, which in the opinion of the Committee would prove a very desirable improvement and of essential benefit to the Community.

Which is respectfully submitted.

The Committee to whom was referred the Subject of General Malcoms request, that he should have the privilege of Wharfage for one Vessel on the East side of Beekman Slip for a certain Term of Years. Report.

That as far as they can investigate General Malcoms pretensions to such privilege, they [12] can find no reason why the same should be granted, on the contrary they are of opinion that such a grant would establish a precedent very detrimental to the revenues of this Board, as no doubt there are many other individuals who are obliged to keep the Slip adjoining their property in repair, who would make claim to the like favor and there is no knowing where such claims if once admitted would stop.

The Committee beg leave further to represent the shameful condition in which the East side of Beekman Slip is at this day, to the very great injury of this Corporation, as no Vessel can discharge at a great part thereof, by reason that the Bridges connecting the Blocks have been taken up and the Timbers cut away insomuch as to render the approach totally impassable for Carts, by whom or by whose order they conceive it the duty of this Board to make an immediate inquiry and recommend that the premises be viewed by a Committee of the whole Board.

The Committee moreover find, that an application made by Gen^l Malcom to this Corporation for the privilege of purchasing about five feet of Ground more or less on the West side of his property, and on the East side of Beekman Slip, which five feet would be a continuation of the line of the upper part of Beekman Slip from Queen Street to Water Street, that this request has been opposed by a Petition from a number of the other Inhabitants in the vicinity, assigning as a reason, that having purchased a right from Doctor Cochran on the opposite

side of the Street for the purpose of keeping the said Street wide, they therefore would consider this object in some measure defeated should this Corporation grant Gen^l Malcolms said request. The Committee recommend said Petition to the notice of this Board (which is said to have been presented somewhere about two Years past) before the Corporation comes to any decision on the premises.

Which is respectfully submitted.

The four following Reports from the Street Committee were read and agreed to by the Board. viz^t

"The Committee on the Subject of carrying into effect the new Line on the East side of White Hall Street. Report that Mr Miles Sherbrooke who owns the corner Lot on White Hall Street & Great Dock Street, proposes, that instead of extending the front of his Lot six feet agreeable to the Line adopted by the Corporation the 27th August last [21] that the said front should only extend two feet two Inches & an half, being an equal proportion with what is taken off of the Rear of his Lot by the aforesaid Line In which case he will consider himself as compensated for the Ground taken from him. The Committee are of Opinion that the Proposition is reasonable and that as this is the terminating point of the Line, the deviation from the Plan adopted by the Board in this respect can be attended with no disagreeable consequences whatever & therefore recommend that the Board adopt the Proposals."

The Street Committee Report. "That the Pavement in the Broadway on the East side thereof adjoining the Pavement in front of Vesey Street should be paved in such a manner as to form an Arch in Conjunction with the Pavement on the West side of the said Broad Way, so as to form a Kennel for the Water that may decend by the Kennels to be formed on either side of the Pavements that may hereafter be made on both sides of the Triangular point in front of the Broadway, and recommend that John Stagg be directed to pave the same accordingly and that this Board do provide for the Expence."

The General Street Committee on the Subject of Murray Street Report. "That said Street be regulated on a regular descent from the Broadway to Greenwich Street with a descent of Two Inches and $\frac{5}{8}$ ₁₀₀ on every ten feet according to which said Street at the distance of Two hundred and fifty feet from the Broadway must be dug down three feet seven Inches, at the Intersection of Church Street seven feet and one Inch, at one hundred and fifty nine feet from thence to be dug down nine feet eight Inches, at a distance [22] of one hundred and fifty feet further, to be dug down seven feet, at the Intersection of Chapple Street to be dug down Five feet two Inches, at a distance

of One hundred and fifty four feet from thence, to be dug down six feet and eight Inches, And at a distance of One hundred and thirty six feet further to be dug down three feet two Inches, which is respectfully submitted."

The General Street Committee on the Subject of Robinson Street Report. "That said Street be regulated on one direct Line from the Broadway to the Intersection of Church Street with a descent of one Inch and $\frac{85}{100}$ on every ten feet, according to which at a distance of One hundred feet from the Broadway, said Street must be dug down one foot, and at the distance of one hundred and fifty feet further, it must be dug down one foot and ten Inches." which is respectfully submitted.

The following Report was presented by Aldⁿ M^cCormick and read & agreed to by the Board viz^t

Your Committee to whom was referred that part of the Petition of Peter P Van Zandt presented to this Board on the 12th Nov^r last respecting a parcel of building Stone that formed a Breast Work at Burlings Slip which the Petitioner sets forth belonged to him and were taken at different times to the use of the public particularly for making a Drain at the said Slip formerly and that the same Stone have been lately used in making the New Drain there. Your Committee are informed that a Breast Work of Stone was at the [58] Slip and they believed it was made by M^r Van Zandt but they can find no Person to

give any certain Account by whom or to what use this Breast Work was converted But they think it highly probable that a part if not the whole may have been used in the old Drain And upon enquiry of M^r Gosman who built the new Drain he estimates the Stone found in the old one at thirty five Pounds—Your Committee therefore submit to the Board whether it would not be proper to allow M^r Van Zandt that Sum in full for any Claims on the Public for the said Stone.

Mr Mayor represented to the Board that on the 24th March 1775 Grants passed under the Seal of this Corporation to Jacob Walton of a certain Water Lot situated at Hunters Key in the East Ward and described by N^o 9 And to Abraham Walton of another Water Lot adjoining the said Water Lot and described by N^o 8, to be delivered to the Parties on their executing the counterparts thereof. That it appears from the Book containing the counterpart of the Grants that neither of the said Parties have executed the counterparts of their said Grants. That he is informed and [160] believes it that the said Grant to the said Jacob Walton hath been delivered to him by Mr Van Cortlandt the former Clerk of this Corporation but that the other of the said Grants hath not been delivered. That the said Abraham Walton had represented to him that a mistake had taken place in the making out of the said two Grants with respect to the description of the said Water Lots for that the Lot N^o 8 ought to have been granted to the said Jacob Walton and that the Lot N^o 9 ought to have been granted to the said Abraham Walton. That in order to correct the said Mistake and remove the difficulties arising therefrom it was proposed that Gerard Walton Executor of the said Jacob Walton should release to the said Abraham Walton the Right granted by the Corporation to the said Lot N^o 9 and that then new Grants from

this Corporation should pass to the said Gerard Walton as Executor as aforesaid of the said Lot N^o 8 instead of the said Lot N^o 9 And to the said Abraham Walton of the said Lot N^o 9 instead of the said Lot N^o 8.

Whereupon it was ordered that the Clerk prepare the Drafts of the said new Grants accordingly.

Theodorus J Hamilton elected an Assessor in the first Ward attended agreeable to the notification delivered him by the Clerk pursuant to the order of the last Meeting and admitted that he was not a free Man of this City and that he was not a freeholder in the Ward. Whereupon his Election was declared by the Board to be void.

William S. Livingston in like manner attended the Board agreeable to the order of the last Meeting and expressed his Opinion "that this Board could not legally enter into the consideration or determination of any Question with respect to the qualification of a Member elect whose time of service did not commence until the 14th

Instant and when he supposed the present Board would die a political Death "

[171] M^r Recorder then made some observations to the Board on the Subject and it was determined nem:con, by the Board that they of right had the Power

M^r Livingston then proceeded to show that he ought to be considered as entitled to all the privileges of a Free Man of this City, altho' he had not been admitted as such under the Seal of this Corporation agreeable to the Charter and observed that his Grandfather & his Father had been admitted and registered as Free Men of this City, That he was born & had served a regular Clerkship as an Attorney at Law in this City, and therefore concluded that he ought to be considered as eligible to a Seat at this Board.

M^r Recorder observed on M^r Livingston's reasoning and then the Question was put whether M^r Livingston was a Free Man of this City agreeable to the Charter, and it was determined nem:con: in the negative.

M^r Livingston then declared that he was at the time of the Election & still continued to be a Freeholder in the Ward, and to the Truth of which he offered to make Oath but refused to produce other Evidence.

The Sense of the Board was then taken whether it would be proper in this Board to admit M^r Livingston's Oath as Evidence of his being a Freeholder; and it was determined nem:con: in the negative.

Whereupon it was unanimously determined that M^r Livingston's Election as an Assistant or Common Council Man was void.

[172] Ordered that Francis Pasman be appointed a Fire Man to Engine N^o 14 vice David Ackerman resigned.

The Poll List of the Election held in the 3^d Ward of two Assessors was presented to the Board from which it appears that Richard Lawrence & William G Miller were duly elected and it was ordered that they be notified to attend and take the Oath prescribed by the Charter

The Poll List of the Election held in the first Ward of an Assistant & an Assessor was also presented to the Board. Whereupon M^r John Van Dyk observed to the Board that as he had the next greatest numbers of Votes at the Election held on the 29th Ult^o to William S Livingston who was declared ineligible, he conceived that, agreeable to the Charter, he ought to be considered as duly elected and entitled to his Seat; and he therefore demanded his Seat accordingly.

Whereupon the Board determined to take the Opinion of Counsel on the [178] Subject and the following State of the Case was made and agreed to by the Board to be delivered to Mess^{rs} Egbert Benson, John Cozine, Richard Harison & John McKesson for their Opinions thereon. viz^t.

“ John Van Dyk was duly elected an Assistant in the Corporation

of the City of New York on the 29th Sept^r 1790 and took the Oaths required by Law on the 14th of October following. At the Election for Charter Officers held the 29th Sept^r 1791 William S Livingston and the said John Van Dyk were Candidates for the Office of Assistant in the first Ward; And the said William S Livingston had the greatest number of Votes for that Office, But the said William S Livingston was not qualified to serve in that Office, not being a Freeman of the said City nor a Freeholder in the said Ward; The Question therefore is whether the Common Council of the said City can or ought of right to order a new Election for an Assistant in the said Ward, or whether the said John Van Dyk is to be considered as duly elected having the greatest number of Votes next to the said W^m S Livingston, or whether the said John Van Dyk ought to hold his Seat under his former Election."
